#### Gender Equity

The International Branch of the Entomological Society of America strives to achieve gender equity in entomology. We endeavor to achieve this through balanced gender representation on organizing committees, as session chairs, as well as through invitations to high quality speakers of all genders proportionally with the equilibrium already present in the research community. To support this, the International Branch will provide 70% of the approved funding up front, with the remaining 30% pending the submission of this final report from the conference organizing committee.
