SPONSORS OF THE 2023 SEB MEETING

Our sponsors provide support for the mixers, breakfast, and various other functions of the meeting. In so doing, they help reduce the registration costs and provide a much more enjoyable environment for our meeting. Please be sure to express your appreciation to our sponsors:

Platinum (≥ $2,500)

- BASF
- Corteva Agriscience

Gold ($1,000 - $2,499)

- UPL OpenAg™
- Cotton Incorporated

Silver ($500-$999)

- SC Johnson
- Center for Insect Science and Family Health

I am excited to welcome you to our annual meeting “Building upon a Tradition of Innovation, Collaboration, and Adaptation” in Little Rock, Arkansas from March 13-15, 2023. Nicole Benda, Florida Department of Agriculture and Consumer Services-Division of Plant Industry and Cory Penca, USDA-APHIS-PPQ, have planned an excellent program that includes information on the latest innovations in biological control, integrated pest management, career opportunities in entomology, and much more!

For 2023, we have two outstanding plenary speakers: Ron Smith, Auburn University; and Tom Kuhar, Virginia Tech University. Both of our plenary speakers have a breadth of knowledge in crop-based entomology research and student mentoring.

The Southeastern Branch has always been an outstanding venue for our graduate and undergraduate students to present their research. How many former SEB students are still connected to ESA through the hospitality received at our regional meeting? Student support and mentoring has been the lifeblood of the SEB for decades. For this reason, The SEB-ESA Executive Committee was pleased to introduce a new registration scholarship opportunity that seeks to support first-time and underrepresented student attendees at our conference for 2023. Karla Addesso of Tennessee State University, SEB Governing Board Representative and Executive Committee Member, led development of the guidelines for the scholarship. Extensive feedback was provided by Michelle Samuel-Foo, USDA-NIFA, Past-President; Kevin Chase, Bartlett Tree Experts, President-Elect; Brett Blaauw, University of Georgia, Secretary-Treasurer; JC Chong, Clemson University, Member-at-Large; Kaushalya Amarasekare, Tennessee State University, Member-at-Large; Chuck Klein, BASF.

Ben Thrash, USDA-ARS led our local arrangements efforts and the Little Rock, Arkansas, including the organization of a fly-tying workshop and fly-fishing excursion. In addition, several hiking opportunities are nearby, and the Clinton Presidential Library is always a well-received educational visit.

The Southeastern Branch is dependent upon a strong network of volunteers. I have only mentioned a fraction of the critical leaders and volunteers for the upcoming meeting. The service and commitment that you provide to the Southeastern Branch is important. We are a family-style network and community.

I am humbled and honored to serve as your 2022-2023 President and community leader/facilitator as we return to our second in-person meeting. I look forward to continuing to rebuild a robust southeastern regional network of research, teaching, and extension connections with you.

Amanda Hodges
SEB-ESA President, 2022-2023
University of Florida, DPM Director
Meeting Information and Policies

PROGRAM SCHEDULE:
The 2023 SEB-ESA Meeting will be in-person only. All activities will be in the Marriott Hotel, Little Rock, Arkansas.

Sessions must adhere to the printed schedule. It is the moderators’ responsibility to keep speakers on schedule. If a scheduled presentation is not given, the moderator should ensure that the next speaker does not begin until his/her scheduled time.

AUDIOVISUAL PRESENTATIONS:
For All Presenters: Please design your material so that it can be read easily by the audience when it is projected. Presentations should be created in a format compatible with PowerPoint (.pptx) and formatted in a 4:3 aspect ratio. All meeting room computers are PCs, so presenters who create a presentation using a Mac should test the file on a PC prior to the meeting. All meeting rooms will be equipped with an LCD projector, projector screen, computer, and microphone.

Presenters are expected to upload their presentation(s) at least two hours prior to their scheduled session. Laptops with presentations uploaded will be moved to the respective rooms 30 minutes before the start of the sessions. The Presentation Preview and Upload AV room will have computers for presenters to load and preview presentations located in the Peck Meeting Room at the following times:
- Sunday, March 12 . . . . . . . 1:00 PM – 5:00 PM
- Monday, March 13 . . . . . . 7:00 AM – 5:00 PM
- Tuesday, March 14 . . . . . . 7:00 AM – 5:00 PM
- Wednesday, March 15 . 7:00 AM – 12:00 PM

Please upload your talk in the appropriate folder. Your presentation should be named with your presentation number, last name, first name: “PresentationNumber_Last Name_First Name”. Presenters who fail to upload more than two hours prior to their session may upload in the session room as long as it does not impact the timing of the session or any other presentations.

For Moderators: 20 minutes before the start of your session, you must come to the Presentation Preview and Upload AV room (Peck Meeting Room) to copy your session’s folder onto a flash drive. There will be a laptop in each presentation room where you can transfer the session folder containing the presentations.

DISPLAY PRESENTATIONS:
Poster boards measuring 4 ft. x 8 ft. will be provided for each display presentation on the Balcony. So that we can fit 2 posters per board, posters should be no larger than 46 x 46 inches (117 x 117 cm). Displays should be mounted on the boards (assigned by the number of the presentation) using pushpins, and authors are asked to bring their own pins or Velcro strips to secure their display to the poster boards.

For Student Competition Poster Presenters: Displays for Monday, March 13 should be set up on Sunday, March 12 evening from 7:00 PM – 8:00 PM or Monday, March 13 from 7:00 AM – 8:00 AM on the Balcony. Student competitors should be present at their posters on Monday, March 13, between 12:30 PM - 1:00 PM (odd numbers) and 1:00 PM - 1:30 PM (even numbers). Students are encouraged to keep their posters up until 6:00 PM, and posters should be removed by 7:00 PM on Monday.

For Regular Poster Presenters: Displays for Tuesday, March 14 should be set up on Monday, March 13 from 7:00 PM – 8:00 PM or Tuesday morning from 7:00 AM – 8:00 AM on the Balcony. Contributed poster presenters should be present from 4:00 PM - 4:30 PM (odd numbers) and 4:30 PM - 5:00 PM (even numbers) on Tuesday, March 14. Presenters are encouraged to keep their posters up until 6:00 PM, and posters should be
removed by 7:00 PM on Tuesday.

**REGISTRATION:** Registration is mandatory to attend the meeting. On-site registration fees include a luncheon ticket and are: ESA Active Members – $450; ESA ECP Members – $450; ESA Student Members – $295; ESA Emeritus and Honorary Members – $295; Guests – $100; and Non-members – $650. One-day registration fee is $450.

Registration Desk is located in the Grand Ballroom Foyer, and will be open for check-in (pre-registered attendees) and for on-site registration at the following times:
- **Sunday, March 12:** 1:00 PM – 5:00 PM
- **Monday, March 13:** 7:30 AM – 4:00 PM
- **Tuesday, March 14:** 7:30 AM – 4:00 PM
- **Wednesday, March 15:** 7:30 AM – 9:00 PM

**FUNCTIONS/EVENTS:**
We have several activities that should be of interest to participants.
- **Sunday:**
  - 10:00 AM – 11:00 AM Fly Tying Workshop (Hoffman, registration required)
  - 1:00 PM – 6:00 PM Fly Fishing Tour (registration required)
  - 4:00 PM – 7:00 PM Entomology Games, Preliminary Rounds (Salon A)
- **Monday:**
  - 8:00 AM – 10:00 AM Plenary Session (Salon A)
  - 5:00 PM – 7:00 PM Entomology Games, Finals (Salon A)
  - 7:00 PM-9:00 PM Welcome Reception (Salon B and C)
- **Tuesday:**
  - 12:15 PM-1:45 PM Awards Luncheon (Salon B and C)
  - 5:30 PM-7:30 PM Final Business Meeting (Harris Brake)

As a registered accompanying guest at this meeting, you will be eligible for all of the above. In addition, you are welcome to attend any of the other meeting events including: Plenary Session, Entomology Games, etc.

**JOB POSTINGS / MESSAGE BOARD:**
There will be a Job Postings / Messages Board labeled as such and available on the Marriott Balcony for all interested employers and prospective employees from 7:00 AM to 5:00 PM on Monday and Tuesday. If you have either a job vacancy or are seeking employment, please post an announcement or short résumé here.

**CODE OF CONDUCT:**
By attending the 2023 Southeastern Branch Meeting, you agree voluntarily to abide by our ethics policy. The full policy may be found online at entsoc.org/conduct. If you need to file a complaint, please contact Stacie East, ESA’s Director of Diversity, Equity, and Inclusion at +1 (301) 731-4535 x3030 or seast@entsoc.org.

**Wifi:** Complimentary internet access is available in all guest rooms as well as conference space.
- **Network:** Marriott Bonvoy Conference
- **Password:** Marriott March

**SOCIAL MEDIA:**
We are excited you could join us this year and would love for you to share your experiences! Please use #SEB2023 for Twitter and visit our Facebook page SEB_Entsoc to share your pictures, thoughts, and opinions with us! Let’s make this an unforgettable event!
### ESA Sections

#### Medical, Urban & Veterinary Entomology (MUVE)
Deals with insect interactions with other animals, including humans, including medical entomology, urban entomology, veterinary entomology, forensic entomology, epidemiology, integrated disease management, human and veterinary parasitology, public health pest management, mosquito control, management of structural pests (e.g., termites, ants), and others.

#### Plant-Insect Ecosystems (P-IE)
Deals with insect interactions with plants, including behavioral, ecological, and evolutionary relationships in natural landscapes, as well as integrated pest management (IPM) in agriculture, horticulture, forests, and lawn and garden. Aspects of crop protection, host-plant response, plant pathology/vectors, pollination, biological control, microbial control, and others are relevant.

#### Physiology, Biochemistry, and Toxicology (PBT), formerly Integrative Physiological and Molecular Insect Systems or IPMIS
Is for people who study insects at the cellular or molecular levels, and it includes topics such as biochemistry, microbiology, toxicology, endocrinology, cytology, molecular biology, allelochemicals, pheromones, hormones, metabolism, and others.

#### Systematics, Evolution, and Biodiversity (SyEB)
Is for people who study insect anatomy, classification and history. As the name implies, it focuses on systematics, evolution and biodiversity, but it could also include morphology, ecology, population dynamics, genetics, phylogeny, nomenclature, biogeography, zoology, and other specialties.
Southeastern Branch-ESA
2022-2023
Officers and Committees

**Executive Committee**
*President*, Amanda Hodges
*President-Elect*, Kevin Chase
*Past President*, Michelle Samuel-Foo
*Secretary/Treasurer*, Brett Blaauw
*Member at Large 1*, Juang Chong (2023)
*Member at Large 2*, Clark Klein (2024)
*Member at Large 2*, Kaushalya Amarasekare (2025)
*Gov. Board Representative*, Karla Addesso

**Program Committee**
*Co-chair*, Cory Penca
*Co-chair*, Nicole Benda

**Local Arrangements Committee**
(Little Rock, Arkansas, 2023)
*Chair*, Ben Thrash
*Member*, Nick Bateman
*Member*, John Zawislak
*Member*, Aaron Cato

**Student Awards Committee**
*Co-Chair*, Sriyanka Lahiri
*Co-Chair*, Estelle Martin
*Member*, Arun Babu
*Member*, Ting Li
*Member*, James Villegas

**Early Career Awards Committee**
*Chair*, Sandra Woolfolk
*Member*, Kelly Carruthers
*Member*, Matt Bertone

**Professional Awards Committee**
*Chair*, Ted Cottrell
*Member*, Dr. Esmaeil Amiri
*Member*, Dr. Scott H. Graham
*Member*, Dr. Sydney Crawley

**Entomology Games Committee**
*Chair*, Jerome Grant
*Member*, Frank Hale
*Member*, Morgan Pinkerton
*Member*, Mike Williams

**Nominations Committee**
*Chair*, Robert Meagher
*Member*, Yuzhe (Cathy) Du
*Member*, Muhammad Haseeb
*Member*, Victor Mascarenhas
*Member*, Desiree Straubinger
*Member*, Blake Wilson

**Sponsorship Committee**
*Chair*, Alejandro Arevalo

**Student Affairs Committee**
*Chair*, Kelly Tims

**Early Career Professional Representative to ESA**
Pierre Lau

**Education & Outreach Committee**
Emily Kraus

---

**Special Thanks To The Following:**
- ESA Central Staff: Becky Anthony and Javhana Johnson
- Confex Staff, especially Amy Coli for program assistance
- All of our moderators, Student Competition judges, and student volunteers
- All of our meeting sponsors
Professional Awards

Award for Excellence in Integrated Pest Management

Dr. Michael Stout

Dr. Michael Stout received his B.A. in Biological Sciences from the University of California, Berkeley, and a PhD in Entomology from the University of California, Davis. His dissertation research was an investigation into the mechanisms of induced resistance in tomato. Dr. Stout began his career in the Department of Entomology at Louisiana State University as an Assistant Professor in 1997. His research interests at LSU include the biology and management of insect pests of rice, the use of host-plant resistance in IPM, and the importance of phenotypic plasticity in pest management. In his role as rice entomologist for the LSU AgCenter, Dr. Stout worked closely with rice growers to integrate the use of plant resistance, insecticides, and cultural practices against rice pests. He has taught a course on host-plant resistance at LSU for over 25 years, and has published approximately 130 refereed journal articles and book chapters and over 150 technical and extension articles and reports. In 2016, he assumed the position of Head in the LSU Department of Entomology.
Distinguished Achievement Award in Teaching

Dr. Rebecca Baldwin

Dr. Rebecca Baldwin is an associate professor and undergraduate coordinator for the University of Florida Entomology and Nematology Department. During her career at the University of Florida, she has taught 11 undergraduate and graduate courses reaching 500-840 students each academic year. She has served or chaired 32 graduate committees and advises 60-90 undergraduate entomology majors and minors each semester. Rebecca serves as the faculty advisor for the undergraduate Entomology Club, is one of the coaches for the graduate Entomology Team and, through the Bugs and People course, has developed a mentoring program where more than 20 students have developed into peer leaders.

Through the UF Preview orientation, she has had the opportunity to share the importance of communication to nearly 70,000 first-year students. Outside of the classroom, Rebecca uses insects to promote science communication and STEM initiatives through directing the Bug Club Entomology Education and Outreach Program through which she has developed the Entomology Field Camp (Bug Camp) and the Florida 4-H Insectathon. Rebecca is a Board Certified Urban and Industrial Entomologist and serves on the Entomological Society of America Education and Outreach Committee. In her extension capacity, Rebecca has mentored more than one hundred pest management professionals towards becoming Associate Certified Entomologists (ACE). She also developed and maintains an annual workshop, approved in 23 states, for vector management pilots and IPM ground crews. She also serves regionally and nationally to provide CEU credits through the Florida Pest Management Association, the Southeast Pest Management Conference, the Southwest Florida and Northwest Florida Pest Management Conferences, and for the National Pest Management Association.
Branch Recognition Award in Entomology

Dr. Lukasz Stelinski

Lukasz Stelinski is a professor in the UF/IFAS department of entomology and nematology based at the UF/IFAS Citrus Research and Education Center. He specializes in applied chemical ecology, vector-pathogen interactions and insect toxicology. Stelinski has conducted research and Extension programs on pest management in subtropical fruit crops and is a recognized expert on controlling pests by applying insect pheromones that disrupt mating. His work develops management strategies to moderate the impact of arthropod-pathogen interactions limiting citrus production while maintaining established biological controls.
Recognition award in Insect Physiology, Biochemistry, and Toxicology

Dr. Shahid Karim

Shahid Karim is a professor in the School of Biological, Environmental, and Earth Sciences (BEES), and the Center for Molecular and Cellular Biosciences at the University of Southern Mississippi. Dr. Karim received his Ph.D. in Molecular Biology from University of the Punjab (Pakistan) and did further postdoctoral research at Oklahoma State University, and University of Rhode Island. He joined the faculty of the University of Southern Mississippi in 2008 as an Assistant Professor of Molecular and Cellular Biology; he is now a Full Professor in the School of BEES. His research focuses on the investigation of tick-pathogen-host interactions by examining salivary products’ role in maintaining a secure attachment and providing a suitable environment for pathogens, resulting in over 90 peer-reviewed research articles, preprints, and numerous additional papers published as proceedings of scientific meetings. He has obtained funding of over $43 million for his research from NIH, USDA, Navy, AHA, USAID, NSF, and University-level grants. He has served as major advisor for 10 undergraduates, and 17 graduate students, mentored 12 postdoctoral fellows and visiting scientists and served on over 25 graduate student committees at the University of Southern Mississippi.
Distinguished Achievement Award in Horticultural Entomology

Dr. Ashfaq A. Sial

Dr. Ash Sial is Associate Professor of Entomology Department at the University of Georgia. He received his B.Sc. Honors Agric. (entomology major) from University of Arid Agriculture Rawalpindi (Pakistan), M.Sc. Honors Agric. Entomology from University of Agriculture Faisalabad (Pakistan), M.Sc. Grain Storage Management from University of Greenwich (United Kingdom), and Ph.D. Entomology from Washington State University (United States of America). Dr. Sial worked as a postdoctoral research associate at University of California Berkeley and Cornell University before accepting a faculty position at the University of Georgia. At UGA, he holds research, extension, and teaching appointment in department of entomology and also serves as IPM Coordinator for the state of Georgia. His research program seeks to investigate biology and ecology of economically important insect pests and utilize that information to develop more sustainable IPM programs in small fruits focused on blueberries. His research program has successfully secured over $32 million in competitive grants through federal and state agencies as well as private industry. He has authored over 200 research and extension publications, over 250 presentations including 39 invited seminars, 11 webinars, and 3 keynote addresses, created several educational materials including blogs, websites, and smartphone apps, and organized 19 symposia at the national and international conferences. His research program has been highlighted multiple times in print and broadcast media including national radio and television. He has extensive record of serving professional organizations in a leadership role at the regional, national and international level. Dr. Sial has served on the Entomological Society of America (ESA) Student Affairs Committee (Chair - 2010) and the ESA Program Committee (2010), ESA Pacific Branch (Program Chair – 2013) and Southeastern Branch (Program Chair – 2017), UGA Department of Entomology Seminar Committee (2015 – 2019), Chair of the Southern Region Technical Committee on IPM (2015-16) and (2021-22), Sponsorship Committee for International Congress of Entomology (2016), and Program Committee for the 9th and 10th International IPM Symposium (2018 and 2022). Dr. Sial has received 37 awards for excellence in research, extension, and teaching, as well as professional leadership and service at regional and national level.
Distinguished Achievement Award in Extension
– no nominations submitted

Distinguished Service to the Certification Program Award
– no nominations submitted

Recognition Award in Urban Entomology
– no nominations submitted
Student awards

John Henry Comstock Award

Alexander B. Orfinger, MS, PhD candidate

Alex (Alexander) Benjamin Orfinger is from Ormond Beach, Florida, growing up adjacent to a state park and intracoastal river through which his passion for nature blossomed early on. Currently, Alex is a PhD Candidate in the University of Florida and Florida A&M University cooperative PhD in Entomology, co-advised by Dr. Raymond Hix and Dr. Andrew Rasmussen. His dissertation is titled “Systematic Studies of the Nearctic Polycentropus sensu stricto (Trichoptera: Polycentropodidae)” and seeks to improve the taxonomy of the Nearctic caddisfly genus Polycentropus, with an emphasis on the aquatic larval stages. Before his PhD, Alex received his Bachelor of Science in Biology with Honors and his Master of Science in Biology from the University of Central Florida. Alex has authored 30 peer-reviewed publications to date, of which he is sole author or first author of 21. He is active in several professional societies and enjoys serving on the executive board of the Florida Association of Aquatic Biologists. Alex has broad interests and experience in entomology, natural history, taxonomy, systematics, ecology, evolutionary biology, and invasion biology of a wide range of taxa, but especially aquatic insects and fishes, as well as science education. Following his PhD, Alex hopes to earn a faculty position at a college or university through which he can continue his passions of teaching, outreach, and research. Outside of work, Alex enjoys traveling, soccer and football, fishing, kayaking, and hiking with his wife and very good dogs.
Taynara Possebom grew up on a farm located in Southern Brazil, Rio Grande do Sul. Growing up on a farm aroused her interest in agriculture but that interest further developed when she finished high school at the Federal Institute of Rio Grande of South – Sertão Campus (IFRS) which is an agriculture technical school. She did several internships at Embrapa Wheat (like the USDA in Brazil), and it motivated her to pursue a BS degree in Agronomy at the University of Passo Fundo (UPF). During her BS. degree, she assisted at Dr. Panizzi’s lab developing research on stink bug behavior in agricultural crops, which was a huge motivation for her to continue studying and learning more about entomology in the world. After that, she challenged herself to move to the US and she spent a year at the University of Nebraska -Lincoln (UNL) with Dr. Tom Hunt and Dr. Justin McMechan studying soybean gall midge. Taynara thoroughly enjoyed all the research internship opportunities that evolved entomology combined with agriculture because the continuous challenge posed by insects to growers and the complex set of strategies to control them spurred her interest in a career focused on entomology. Her interests brought her to continue her education and pursue a master’s degree focused on entomology at Dr. Dominic Reisig’s Lab at North Carolina State University (NCSU). Taynara’s MS research focuses on understanding the vertical distribution of Helicoverpa zea (Boddie) (Lepidoptera: Noctuidae) in different soybeans growth habits (determinate and indeterminate), and how it does affect the soybean yield component. Her research provides data to improve Integrated Pest Management in soybeans.
Student Awards – 2022

ROBERT T. GAST AWARDS

Outstanding Ph.D. Oral Presentations

Session I

First Place, Kelly Carruthers
Presentation title: Evaluating emigration of *Pseudophilothrips ichini*, a biological control agent, from herbicide-treated brazilian peppertree

Second Place, James Brown
Presentation title: Comparing the response of *Drosophila suzukii* to scentry® traps baited with yeast and commercial lures

Session II

First Place, Jinlong Han
Presentation title: A RNAi-based functional genomics tool for first instar larvae of *Frankliniella occidentalis*

Second Place, Marice Lopez
Presentation title: Comparing the effectiveness of reduced-risk and conventional insecticides on blueberry gall midges and their key parasitoids

Session III

First Place, Sudeep Pandey
Presentation title: Effect of cotton leafroll dwarf virus (CLRDV) infection on biology and preference of its vector *Aphis gossypii* (Hemiptera: Aphididae)
Second Place, Chelsea Smith
Presentation title: Parasitoid detection and parental care of the American cockroach in response to the presence of the oothecal parasitoid, *Aprostocetus hagenowi*

Session IV
First Place, Paige Caine
Presentation title: Rescue behavior in *Solenopsis invicta* fire ants

Second Place, Ethan Doherty
Presentation title: The effects of varietal mixes on stored rice pest resistance

Outstanding Ph.D. Poster Presentations
Session I
First Place, Sanower Wasi
Presentation title: Intrinsic and extrinsic competitive interactions between *Ooencyrtus nezarae* and *Paratelenomus saccharalis* in the Central Alabama

Second Place, Galen Cobb
Presentation title: Searching for a bee-gone era: A re-survey approach to assessing biodiversity in North-Central Florida bee communities
Outstanding Ph.D. Oral Presentations (Virtual)

Session I

First Place, Matthew Longmire

Presentation title: Ecological impact of laurel wilt on insect diversity and community composition of northern spicebush

Second Place, Maria González-Morales

Presentation title: Biting us and taking bites from our food? Xenointoxication to control bed bug infestations in poultry farms

Outstanding Ph.D. Poster Presentations (Virtual)

Session I

First Place, Julian Cosner

Presentation title: Variety of hemp and floral preservation influences corn earworm, Helicoverpa zea, development and survival

Second Place, Olivia Kline

Presentation title: Feeding preference and mortality of blue orchard bees (Osmia lignaria) exposed to the novel insecticides, Flupyradifurone and Sulfoxaflor

Outstanding M.S. Oral Presentations

Session I

First Place, George Bohannon

Presentation title: Bark attack: Optimizing biocontrol releases for emerald ash borer in North Carolina
Second Place, Lucas Brendel

Presentation title: Impacts of weather and habitat on mosquito diversity and culex flavivirus prevalence in North-Central Florida

Session II

First Place, Joseph Gonsiorek

Presentation title: Efficacy of a push-pull system on whitefly populations and marketable yield in organic squash

Second Place, Walker Brett Farmer

Presentation title: Influence of imidacloprid seed treatment rate on thryvon cotton

Session III

First Place, Judge Fortenberry

Presentation title: Residual of NPV and feeding habits of Helicoverpa zea after ingestion

Second Place, Amanda Furuya

Presentation title: Evaluation of effects of diatomaceous earth on diamondback moth (Plutella xylostella) (Lepidoptera:Plutellidae) feeding and survival on cabbage

Session IV

First Place, Julia Berliner

Presentation title: Diet breadth mediates arthropod responses to surplus fertility in organic agroecosystems
Second Place, Xiomara L Flores-Rivera

Presentation title: Helicoverpa (Lepidoptera: Noctuidae) in field crops in Puerto Rico: Occurrence, species prevalence, and insecticide susceptibility

Outstanding M.S Poster Presentations

First Place, Abigail Yeboah

Presentation title: Comparing thermal limits of Lilioceris cheni biotypes: Implications for biological control of air potato in Louisiana

Second Place, Nina Rudin

Presentation Title: Effects of temperature on the development of the Nearctic Cereal Aphid parasitoid Aphelinus nigritus (Howard)

Outstanding M.S Poster Presentations (Virtual)

First Place, April Skipper

Presentation title: Effects of Proximity to Corn and Insecticide Applications on Seasonal Abundance of Two Rootworm Pests, Diabrotica undecimpunctata and Diabrotica balteata, in Georgia Peanut Fields

Second Place, Courtney Wynn

Presentation Title: A glucose-conjugating enzyme is highly expressed in the silk glands of moths

Outstanding M.S Oral Presentations (Virtual)

First Place, Yasmin Tavares

Presentation title: Leveraging archived sentinel chicken surveillance records to investigate west nile virus transmission in Florida
Second Place, Joshua Botti-Anderson
Presentation Title: Pollination ecology of the invasive brazilian peppertree and impacts on wild plant-pollinator communities

Outstanding Undergraduate Poster Presentations
First Place, Ashley Gamble
Presentation title: Solenopsis invicta predation on Helicoverpa zea eggs and pupae in different row crops in Southeastern US

Second Place, Veronica Selden
Presentation Title: Functional diversity in the North-Central Florida bee communities

Outstanding Extension, Outreach and Teaching Presentations
First Place, Kristin Peters
Presentation title: Give the people what they want! landowner needs drive forest health extension

Second Place, Paola Agosto
Presentation Title: Molecular characterization of palm species, phytoplasma and associated auchenorrhyncha occurrence in Puerto Rico
2022 Entomology Games

1st place - Auburn University
Seun Olaitan Oladipupo (Captain)
Chelsea Smith
Festus Ajibefun
Alan Jeon
Coach: Nannan Liu

2nd place - University of Florida
Kelly Carruthers
Nicholas Johnston
Lucas Brendel
John Ternest
Sara Salgado (as alternate)
Coaches: Rebecca Baldwin, Estelle Martin, Jason Williams

Note: Auburn went on to place 2nd at the National Entomology Games in Vancouver, B.C.

1983 Entomology Games (40 years ago)

The Inaugural Southeastern Branch Entomology Games (formerly known as the Linnean games) was held in Little Rock during the 1983 meeting. The 2023 meeting marks the 40th anniversary of the games and a return to its southeastern branch birthplace! Clemson won the inaugural games while Auburn was the runner up, with LSU and Arkansas participating.

Pictured above: The winning Clemson team in 1983, from left to right: Gerald Carner (team advisor), Lisa Lemke, Barry Dover, Peggy Sieburth and Jerome Grant. Former SEB President Nancy Hinkle was a member of the 2nd place Auburn team. Photo provided by Jerome Grant.

Monday, March 13, 2023, Posters

Undergraduate Student Poster Competition / 8:00 AM-6:00 PM

Balcony (Little Rock Marriott)

P-1 Morphological and functional classification of the Amblyomma americanum immune cells. Julia Hanson (julia.hanson@usm.edu)1, Abdulsalam Adegoke1 and Shahid Karim2. 1The Univ. of Southern Mississippi, Hattiesburg, MS, 2Principle Investigator, Hattiesburg, MS

P-2 Developing a rapid habitat assessment for bee communities. Jacqueline Bowling (jbowiing3@cub.uca.edu)1 and Coleman Little2, 1Univ. of Central Arkansas, Conway, AR, 2Univ. of Arkansas, Fayetteville, AR

P-3 Mining-contaminated sediments have detrimental effects on macroinvertebrate abundance in Missouri streams. Malachai Frisby (mof283s@login.missouristate.edu), Daphne Miles, Anna Faust and La Toya Kissoon-Charles, Missouri State Univ., Springfield, MO

P-4 Immersion method on cockroaches and ants using 25B Insecticidal Soap. Kimberly Lastra (kimberlylastra@ufl.edu), Univ. of Florida, Gainesville, FL

Masters Student Poster Competition I / 8:00 AM-6:00 PM

Balcony (Little Rock Marriott)

P-5 Larvae of North American Dixia Meigen and Meringodixa Nowell (Diptera: Dixidae): Association and identification using morphological and nucleic acid data. Jackson Turner (jturne88@vols.utk.edu) and John Moulton, Univ. of Tennessee, Knoxville, TN

P-6 The effect of symbioses between the Mold Mite Tyrophagus putrescentiae and fungus Aspergillus flavus on their respective populations in stored maize. Paige Cummins (ppcummin@uark.edu), Univ. Of Arkansas, Fayetteville, AR

P-7 Multi stressor impacts on honey bee physiology and gut microbiome. Urita Agana (ua57@msstate.edu), Hunter Walt, Angus Catchot and Priyadarshini Chakrabarti Basu, Mississippi State Univ., Starkville, MS

P-8 Residual activity of insecticides against adult Systena frontalis (F.) (Coleoptera: Chrysomelidae) under laboratory conditions. Rehan Arshad (Rehan.Arshad@uga.edu) and Shimat Joseph, Univ. of Georgia, Griffin, GA

P-9 Introduction of the Dixella indiana species group: Evaluation of Dixella indiana, resolved identity and transfer of Dixa pseudindiana, and descriptions of three new species. Noah Parker (nparker15@vols.utk.edu), John Moulton, Jackson Turner and Greg Curler, Univ. of Tennessee, Knoxville, TN

P-10 Effects of leaf diversity on stream invertebrate (Chironomidae, Hyalellidae) abundance and diversity. Joseph Aubert (jfa019@email.latech.edu) and Julia Earl, Louisiana Tech Univ., Ruston, LA

P-11 Control of rice stink bugs with botanical, fungal, and bacterial insecticides. Carolina Tieppo Camarozano (carolina.tieppoc@ufl.edu), Julien Beuzelin1, Matthew VanWeelden1 and Hugh Smith2. 1Univ. of Florida, Belle Glade, FL, 2Univ. of Florida, Wimauma, FL

P-12 Effects of vegetation damage treatments and their timings on Buprestidae attraction to traps. Aubree Morrison (amorr45@tnstate.edu), Jason Oliver, Karla Addesso, Cynthia Perkovich, William Klingeman, Nadeer Youssef, Chastity King and Garrett Roper1, 1Tennessee State Univ., McMinnville, TN

P-13 Field-level optimization of adult Melanotus communis (Coleoptera: Elateridae) sex pheromone, 13-tetradecenyl acetate. Emma Schoeppner (eschoep@ncsu.edu), Anders Huserth, Livy Williams, Jocelyn Millar, Helene Doughty, Thomas Kuhar and Ronald H. Cherry, 1North Carolina State Univ., Raleigh, NC, 2USDA - ARS, Montpellier, France, 3Univ. of California, Riverside, Riverside, CA, 4Virginia Polytechnic Institute and State Univ., Painter, VA
P-14  Toxicity of Pirimiphos-methyl and Deltamethrin to Sitophilus oryzae infesting stored corn. Amina Twaibu (aatwaibu@uark.edu), Ngoc Phan, Glenn Studebaker, Benjamin Thrash, Nick Bateman and Neelendra Joshi, 1Student, Fayetteville, AR, 2Post Doctoral Fellow, Fayetteville, AR, 3Univ. of Arkansas System Division of Agriculture Cooperative Extension Service, Keiser, AR, 4Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, 5Univ. of Arkansas, Stuttgart, AR, 6Univ. of Arkansas, Fayetteville, AR

P-15  Geographical susceptibility of fall armyworm populations in the southern region of the United States to eight common chemical insecticides. Bhavana Patla (bhavanapatla1243@gmail.com), Louisiana State Univ., Baton Rouge, LA

P-16  Corn silk fly species are differentially distributed across the landscapes of sweet corn farms in Florida. Larissa Pereira Lima (lpereiralima@ufl.edu), Julien Beuzelin, Dakshina Seal and Sandra Allan, 1Univ. of Florida, Belle Glade, FL, 2Univ. of Florida, Homestead, FL, 3USDA - ARS, Gainesville, FL

P-17  Cockroach oviposition bioassays utilizing common indoor and outdoor household substrates. Madeline Griffin (mpg0025@auburn.edu), Ana Chicas-Mosier, Xing Ping Hu and Arthur Appel, 1Auburn Univ., Auburn, AL, 2Univ. of Kansas, Lawrence, KS

PhD Student Poster Competition I/ 8:00 AM-6:00 PM
Balcony (Little Rock Marriott)

P-18  Shenanigans of specialists in biological control of invasive plant air potato (Dioscorea bulbifera L.). Jasleen Kaur (jasleenkaur@ufi.edu), Emily Kraus, Diego Salazar and Philip Hahn, 1Univ. of Florida, Gainesville, FL, 2Florida International Univ., Miami, FL, 3Univ. of Montana, Missoula, MT

P-19  Species diversity of thrips of the coastal plains of South Carolina. Dawn Sikora (Dsikora@g.clemson.edu), Clemson Univ., Clemson, SC

P-20  Assessment of adult ovipositional preferences of periodical cicada (Brood X 2021) (Hemiptera: Cicadidae: Magicicada spp.) among commercial nursery tree species. Martine Bowombe Toko (mbowombe42@nttech.edu), Jason Oliver, Michael Allen and Douglas Airhart, 1Tennessee Technological Univ., Cookeville, TN, 2Tennessee State Univ., McMinnville, TN

P-21  Exciting solutions for boring pests: Establishing fungal entomopathogens as endophytes in Prunus persica. Sabrina Barbosa (sab99204@uga.edu), David Shapiro-Ilan, Dario Chavez and Brett Blaauw, 1Univ. of Georgia, Athens, GA, 2USDA - ARS, Byron, GA, 3Univ. of Georgia, Griffin, GA

P-22  Relating insecticide efficacy to honey bee toxicity. Angus Catchot III (alc607@msstate.edu), Jeff Gore, Whitney Crow, Angus Catchot, Don Cook, Priyadarshini Chakrabarti Basu and Jacob Smith, 1Mississippi State Univ., Starkville, MS, 2Mississippi State Univ., Stoneville, MS

P-23  Early progress in establishing phylogenetic relationships between Chrysobothris species (Coleoptera: Buprestidae) using next generation and reduced-representation sequencing. Axel Gonzalez Murillo (adgonzal24@gmail.com), John Moulton, Bode Olukolu, Robert de Moya, Kurt Lamour, Karla Addesso, Joshua P. Basham, Jhalendra Rijal and William Klingeman, 1Univ. of Tennessee, Knoxville, TN, 2Univ. of Illinois, Champaign, IL, 3Tennessee State Univ., McMinnville, TN, 4Univ. of California Agriculture and Natural Resources, Modesto, CA, 5Univ. of Tennessee, Knoxville, TN

P-24  Screening newly-developed Squash (Cucurbita spp.) germplasm lines for resistance against whitefly-transmitted Begomovirus and Crinivirus mixed infection. Gurjit Singh (fg69001@uga.edu), Cecilia McGregor and Rajagopalbabu Srinivasan, 1Univ. of Georgia, Griffin, GA, 2Univ. of Georgia, Athens, GA

PhD Student Poster Competition II/ 8:00 AM-6:00 PM
Balcony (Little Rock Marriott)
### Masters Student Oral Presentation Competition I

**Monday, March 13, 2023, Morning**

**Hoffman (Little Rock Marriott)**

**Moderator(s):** Whitney Crow, Mississippi State University, Stoneville, MS; Sebe Brown, Louisiana State University Agricultural Center, Baton Rouge, LA

<table>

<th>Presentation</th>
</tr>
</thead>
<tbody>
<tr>
<td>10:30 AM</td>
<td>1. Yield impact of simulated tarnished plant bug (<em>Lygus lineolaris</em>) injury during late bloom on ThryvOn cotton. <em>Seth Permenter</em> (<a href="mailto:stp132@msstate.edu">stp132@msstate.edu</a>)</td>
</tr>
<tr>
<td>10:42 AM</td>
<td>2. Insecticide application efficacy of sUAS as compared to traditional delivery systems. <em>Hunter Blalock</em> (<a href="mailto:hjb206@msstate.edu">hjb206@msstate.edu</a>)</td>
</tr>
<tr>
<td>10:54 AM</td>
<td>3. Management of the Asian needle ant, <em>Brachyponera (=Pachycondyla) chinensis</em> (Emery). <em>Karen Corsetti</em> (<a href="mailto:corsettikaren@gmail.com">corsettikaren@gmail.com</a>), Univ. of Georgia, Stockbridge, GA</td>
</tr>
<tr>
<td>11:06 AM</td>
<td>4. Soybean management for Lepidopteran pest using insect growth regulators. <em>Sawyer Hopkins</em> (<a href="mailto:sch420@msstate.edu">sch420@msstate.edu</a>)</td>
</tr>
<tr>
<td>11:18 AM</td>
<td>5. Evaluating broad mite, <em>Polyphagotarsonemus latus</em>, sampling techniques in blackberry. <em>Jared Linn</em> (<a href="mailto:jinn@uark.edu">jinn@uark.edu</a>)</td>
</tr>
<tr>
<td>11:30 AM</td>
<td>6. Field testing commercial entomopathogens for control of sweetpotato weevil, <em>Cylas formicarius elegantulus</em>. <em>Schyler Lee</em> (<a href="mailto:SLee@agcenter.lsu.edu">SLee@agcenter.lsu.edu</a>)</td>
</tr>
</tbody>
</table>
11:42 AM  7  Balancing soil nutrition for sustainable weed and insect-pest management. Carly Sharp (carly.sharp@uga.edu), William Snyder, Carmen Blubaugh, Kate Cassity-Dufey and Anny Chung, Univ. of Georgia, Athens, GA

11:54 AM  8  Evaluation of arthropod natural enemies attracted to various insectary plants. Yuna Gaire (ygaire@my.tnstate.edu), Kaushalya Amarasekare, Firuz Yuldashev and Sarah Kilcayne, Tennessee State Univ., Nashville, TN

12:06 PM  9  Impacts of brown marmorated stink bugs on ear rots in Tennessee field corn. Alexandra Crowder (acrowd12@vols.utk.edu), Heather Kelly and Sebe Brown, Univ. of Tennessee, Jackson, TN

Masters Student Oral Presentation Competition II

Harris Brake (Little Rock Marriott)

Moderator(s): Paulo Cremonez, Londrina State University, Londrina, Brazil; Seung-Joon Ahn, Mississippi State University, Mississippi State, MS

10:30 AM  10  Within-plant distribution of Helicoverpa zea (Boddie) (Lepidoptera:Noctuidae) eggs on soybeans. Taynara Possebom (tposseb@ncsu.edu)¹, Dominic Reisig² and Igor Schardong¹, ¹North Carolina State Univ., Raleigh, NC, ²North Carolina State Univ., Plymouth, NC

10:42 AM  11  Effects of permethrin residues on ambrosia beetles in ornamental nurseries. Zia Williamson (zww40648@uga.edu)¹, Brett Blaauw² and Shimat Joseph³, ¹Univ. of Georgia, Griffin Campus, Griffin, GA, ²Univ. of Georgia, Athens, GA, ³Univ. of Georgia, Griffin, GA

10:54 AM  12  Examining Pyrethroid resistance in Arkansas rice stink bug, Oebalus pugnax, populations. Trevor Newkirk (tnewkir@uark.edu)¹, Nick Bateman¹, Benjamin Thrash², Stephen Felts², Andrew Plummer³, Taylor Ibbotson³, Adam Whitfield³, Zack Murray³ and Taylor Harris³, ¹Univ. of Arkansas, Lonoke, AR, ²Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, ³Univ. of Arkansas, Stuttgart, AR, ⁴Univ. of Arkansas, Cooperative Extension Service, Lonoke, AR, ⁵Univ. of Arkansas, Lonoke, AR, ⁶Technician, Lonoke, AR

11:06 AM  13  performance of management tools for soybean loopers in Mississippi soybeans. Reece Butler (rsb323@msstate.edu)², Whitney Crow² and Don Cook², ¹Mississippi State Univ., Starkville, MS, ²Mississippi State Univ., Stoneville, MS

11:18 AM  14  Survey of entomopathogenic nematodes for virulence towards the small hive bee. Kaitlyn Garland (kaitlyn.Garland@fvsu.edu)¹, David Shapiro-Ilan² and George N. Mbata³, ¹Fort Valley State Univ., Fort Valley, GA, ²USDA-ARS, Byron, GA, ³Agricultural Research Station, Fort Valley State Univ., Fort Valley, GA

11:30 AM  15  On-farm comparison of Bt and non-Bt refuge corn hybrids for yield and feeding by Helicoverpa zea. Alexis Middleton Asldorf (amiddle@ncsu.edu), North Carolina State Univ., Raleigh, NC

11:42 AM  16  Evaluation of ThryvOn technology for control of tarnished plant bugs in cotton. Adam Whitfield (aywhitfi@email.uark.edu)¹, Benjamin Thrash², Nick Bateman³, Andrew Plummer³, Taylor Ibbotson³, Stephen Felts³, Trevor Newkirk³, Zack Murray³ and Taylor Harris³, ¹Univ. of Arkansas, Lonoke, AR, ²Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, ³Univ. of Arkansas, Lonoke, AR, ⁴Technician, Lonoke, AR

11:54 AM  17  More than detoxification: A glucose-conjugating enzyme is highly expressed in the silk glands of moths. Courtney Wynn (cnw226@msstate.edu) and Seung-Joon Ahn, Mississippi State Univ., Mississippi State, MS

12:06 PM  18  The role of perennial hayfields as habitat for grassland arthropod predators. Amelia Grider (acg0036@auburn.edu) and Bill Wills, Auburn Univ., Auburn, AL

12:18 PM  19  Sublethal effects of pyriproxyfen and cyantraniliprole on Bemisia tabaci immature development. Mirela Nagaoka (mmn28787@uga.edu), Paulo Cremonez and David Riley, Univ. of Georgia, Tifton, GA

Masters Student Oral Presentation Competition III

White Oak (Little Rock Marriott)

Moderator(s): Dominic Reisig, North Carolina State University, Plymouth, NC; Brett Blaauw, University of Georgia, Athens, GA
29 Enhancing hedgerow systems in fruit tree production to improve beneficial insect diversity and abundance. Tristen Dittman (thd89174@uga.edu) and Brett Blaauw, Univ. of Georgia, Athens, GA

10:42 AM 21 Control of mealybugs on ornamentals in greenhouses. Zachary Everson (zacharyeverson720@gmail.com), Sophia Copeman1, Sujan Dawadi2 and Steven Frank1, 1North Carolina State Univ., Raleigh, NC, 2Purdue Univ., West Lafayette, IN

10:54 AM 22 Potential hosts and plant damage caused by the European pepper moth. Sophia Copeman (smcopema@ncsu.edu), North Carolina State Univ., Raleigh, NC

11:06 AM 23 Host preference of Trichopoda pennipes (Diptera: Tachinidae) on Nezara viridula (Hemiptera: Pentatomidae), Anasa tristis (Hemiptera: Coreidae), and Leptoglossus phyllopus (Hemiptera: Coreidae) in north central Florida. Lillie Rooney (rooney.lillie@ufl.edu), Lorrie Konopasek, Norman Leppla and Kendall Stacey, Univ. of Florida, Gainesville, FL

11:18 AM 24 The effect of fire ant-produced compounds on microbes. Ashley Morris (ammorris1@ufl.edu), Univ. of Florida, Gainesville, FL

11:30 AM 25 Comparison of transgenic Bacillus thuringiensis technologies in Arkansas cotton systems for control of bollworm, Helicoverpa zea. Zack Murray (zmurray@uark.edu), Benjamin Thrash, Nick Bateman, Andrew Plummer, Matthew Mann, Taylor Murray, Stephen Felts, Chase Floyd, Trevor Newkirk, Adam Whitfield and Taylor Harris, 1Univ. of Arkansas, Lonoke, AR, 2Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, 3Univ. of Arkansas, Stuttgart, AR, 4Univ. of Arkansas System Division of Agriculture Cooperative Extension Service, Jonesboro, AR, 5Univ. of Arkansas Extension and Research, Lonoke, AR

11:42 AM 26 The colonization of mesocosms by aquatic insects (Coleoptera: Dytiscidae & Hydrophilidae) in response to leaf litter mixtures. Daniel Edwards (dje014@email.latech.edu) and Julia Earl, 1Louisiana Tech, Ruston, LA, 2Louisiana Tech Univ., Ruston, LA

11:54 AM 27 Evaluating the influence of winter cover crops and biological insecticides on the performance of organic sweetpotatoes. Claire Schloemer (czz0171@auburn.edu), Scott Graham, Kathy Lawrence, Brent Sipes and Koon-Hui Wang, 1Auburn Univ., Auburn, AL, 2Univ. of Hawaii at Manoa, Honolulu, HI
Undergraduate Student Oral Presentation Competition

Hoffman (Little Rock Marriott)

Moderator(s): Cory Penca, USDA APHIS PPQ, Miami, FL; Kaydie McCormick, University of Florida, Sanford, FL

2:30 PM 33 Impact of commonly used insecticides in strawberries on three predatory mites. Allan Busuulwa (abusuulwa@ufl.edu), Alexandra Revathy, Oscar Liburd and Sriyanka Lahiri, Univ. of Florida—Tropical Research and Education Center, Homestead, FL; Univ. of Florida, Gainesville, FL

2:42 PM 34 Effects of turfgrass cover on abundance of beneficial arthropods in sod farms. Mahesh Ghimire (mg66283@uga.edu) and Shimat Joseph, Univ. of Georgia, Griffin Campus, Griffin, GA; Univ. of Georgia, Griffin, GA

2:54 PM 35 Phylogeography, speciation, and cryptic diversity in Pseudosinella cave springtails (Entomobryomorpha: Entomobryidae) of the Interior Low Plateau and Appalachian Valley & Ridge Karst regions. Brendan Cramphorn (btc0011@uah.edu), Univ. of Alabama in Huntsville, Huntsville, AL

1:30 PM 38 Completeness of resistance to Bt crops. Fangneng Huang (fhuang@agcenter.lsu.edu), Louisiana State Univ. Agricultural Center, Baton Rouge, LA

1:42 PM 39 Multiagency Florida first detector program engages audiences to increase invasive species detection. Sarah Tafel (tafels@ufl.edu), Amanda Hodges, Shannon McAmis, Morgan Pinkerton and Julia Ryczynski, Univ. of Florida, Gainesville, FL; Univ. of Florida/IFAS, Sanford, FL

1:54 PM 40 Science Saturday: Utilizing weekend fun to spark interest in insects and arthropods. Latoyia Downs (latoyia.downs@usm.edu) and Shahid Karim, The Univ. of Southern Mississippi,
PhD Student Oral Presentation Competition I

Conway (Little Rock Marriott)

Moderator(s): G. David Buntin, Univ. of Georgia, Griffin, GA and Tom Bilbo, Clemson Univ., Charleston, SC

1:30 PM

41 Development of bumblebees on centipedegrass pollen. Oluwatomi Ibiyemi (obi91955@uga.edu)1, David Jespersen1, Karen Harris-Shultz2 and Shimat Joseph1, 1Univ. of Georgia, Griffin, GA, 2USDA, Tifton, GA

1:42 PM

42 Incorporating sweet alyssum flowers (Lobularia maritima) to optimize biological control of Diamondback moth (Plutella xylostella) in the Brassica fields of South Carolina. Amna Ghani (aghani@clemson.edu) and Tom Bilbo, Clemson Univ., Charleston, SC

1:54 PM

43 An inexpensive device to assess the temporal flight activity of mosquitoes, biting midges and other insects. Vilma Montenegro (vilma.montenegro@ufl.edu) and Nathan Burkett-Cadena, Univ. of Florida, Vero Beach, FL

2:06 PM

44 Seasonal abundance of blueberry flower thrips in Georgia. Rosan Adhikari (ra84320@uga.edu) and Ashfaq Sial, Univ. of Georgia, Athens, GA

2:18 PM

45 Genetic resistance to Hessian fly in soft red winter wheat in the southeastern US. John Bagwell (jbagwell@uga.edu)1, Madhav Subedi1, Suraj Sapkota2, Benjamin Lopez1, Zhenbang Chen1, G. David Buntin1, Bochra Bahri1 and Mohamed Merouga1, 1Univ. of Georgia, Griffin, GA, 2USDA-ARS, Tifton, GA

2:30 PM

46 Combining scalping, reduced fertilization, and a miticide to manage bermudagrass mite infestations. Matthew Brown (msb5@clemson.edu)1 and Shuang Horng Chong2, 1Clemson Univ., Clemson, SC, 2Clemson Univ., Florence, SC

2:42 PM

47 Potential of the oothecal parasitoid Aprostocetus hagenowii (Hymenoptera: Eulophidae) as a biological control agent for the Turkestan cockroach Blatta lateralis (Blattodea: Blattidae). Chelsea Smith (cms0187@auburn.edu)1, Ana Chicas-Mosier1, Henry Fadamiro1 and Arthur Appel1, 2Auburn Univ., Auburn, AL, 3Univ. of Kansas, Lawrence, KS, 4Texas A&M Univ., College Station, TX

2:54 PM

48 Population dynamics of two major Lepidopteran pests and their larval endoparasitoids on hemp in Tennessee. Julian Cosner (jcosner@vols.utk.edu), Jerome Grant and Mitchell Richmond, Univ. of Tennessee, Knoxville, TN

PhD Student Oral Presentation Competition II

Harris Brake (Little Rock Marriott)

Moderator(s): Fangneng Huang, Louisiana State Univ. Agricultural Center, Baton Rouge, LA and Don Cook, Mississippi State Univ., Stoneville, MS

1:30 PM

49 Testing Vip3Aa binding in susceptible and resistant Spodoptera frugiperda (Lepidoptera: Noctuidae) strains. Rajeev Roy (rroy7@vols.utk.edu)1, Dawson Kerns2, David Kerns3, Fei Yang4, Fangneng Huang5 and Juan-Luis Jurat-Fuentes2, 1Univ. of Tennessee, Knoxville, TN, 2Univ. of Tennessee, Knoxville, TN, 3Texas A&M AgriLife Extension Service, College Station, TX, 4Texas A&M Univ., College Station, TX, 5Louisiana State Univ. Agricultural Center, Baton Rouge, LA

1:42 PM

50 Updates to the taxonomy of Nearctic Polycentropus Curtis, 1835 (Trichoptera: Polycentropodidae). Alexander Orfinger (a.orfinger@ufl.edu), Univ. of Florida, Tallahassee, FL; Florida A&M Univ., Tallahassee, FL

1:54 PM

51 Evaluating Dermacentor variabilis and Amblyomma americanum (Ixodidae: Acari) population trends across time in the United States using systematic review data. Dayvion Adams (dradams4@ncsu.edu) and Michael Reiskind, North Carolina State Univ., Raleigh, NC

2:06 PM

52 Factors affecting the developmental biology of kudzu bug (Megacopta cribraria) egg parasitoids. Sanower Warsi (szw0132@auburn.edu), Auburn Univ., Auburn, AL

2:18 PM

53 Pollinator facilitation: A mechanism for better blueberry production? John Ternest (jternest@ufl.edu), Patricio Muñoz and Rachel Mallinger, Univ. of Florida, Gainesville, FL
PhD Student Oral Presentation Competition III

White Oak (Little Rock Marriott)

Moderator(s): Xavier Martini, Univ. of Florida, Quincy, FL and Lauren Diepenbrock, Univ. of Florida, Lake Alfred, FL

1:30 PM 58 Insecticide resistance and metabolic detoxification in the mosquito Aedes aegypti (Diptera: Culicidae). Dylan Brown (djbb0094@auburn.edu) and Nannan Liu, Auburn Univ., Auburn, AL

2:42 PM 55 Monitoring for Pyrethroid resistance in Mississippi rice stink bug populations. Mary Jane Lytle (mjil449@msstate.edu), Jeff Gore, Whitney Crow, Don Cook, Angus Catches and Jason Bond, Mississippi State Univ., Stoneville, MS, Mississippi State Univ., Mississippi State, MS

2:54 PM 56 Host plants influence differential gene expression in Aphis gossypii upon virus acquisition from cotton leafroll dwarf virus (CLRDV) infected plants. Sudeep Pandey (sp36142@uga.edu), Michael Catto, Phillip Roberts, Sudeep Bag, Alana Jacobson, Phillip Roberts3,1, Univer. of Georgia, Griffin, GA, 2Univer. of Georgia, Athens, GA, 3Univer. of Georgia, Tifton, GA, 4Univer. of Georgia, Tifton Campus, Tifton, GA, 5Auburn Univer., Auburn, AL

3:06 PM 57 Natural versus commercial biological control: Are field-collected and commercial entomopathogenic strains of Beauveria bassiana effective in causing mortality of kudzu bug, Megacopta cribraria? Kassie Hollabaugh (khollaba@vols.utk.edu), Jerome Grant, Bonnie Ownley and Scott Stewart, 1Univ. of Tennessee, Knoxville, TN, 2Univ. of Tennessee, Jackson, TN

1:54 PM 60 Monitoring tolerance to Dinotefuran, Flupyradifurone, Cyrantraniliprole, and Afidopyropen in Bemisia Tabaci MEAM1 field populations from south Florida. Marcelo Dimase (marcelodimase@ufl.edu) and Hugh Smith, Univ. of Florida, Wimauma, FL

2:06 PM 61 Hibiscus mealybugs (Hemiptera: Pseudococcidae) congregate near points of injury on citrus trees via attractive herbivore-induced volatiles. David Olabiyi (davidolabiyi@ufl.edu), Lukasz Stelinski and Lauren Diepenbrock, Univ. of Florida, Lake Alfred, FL

2:18 PM 62 Spatiotemporal population dynamics of Helicoverpa zea at fine spatial scales. Lindsey Christianson (ldchrist@ncsu.edu), Seth Dorman and Anders Huseth, 1North Carolina State Univ., Raleigh, NC, 2National Forage Seed Production Research Center-USDA-ARS, Corvallis, OR

2:30 PM 63 Evaluation of semiochemical and visual based push-pull strategy for managing redbay ambrosia beetle on redbay. Derrick Conover (dconover13@ufl.edu) and Xavier Martini, 1UF/IFAS, Tallahassee, FL, 2Univ. of Florida, Quincy, FL

2:42 PM 64 A spicy situation: Insect diversity and community composition of northern spicebush. Matthew Longmire (mlongmir@vols.utk.edu), Jerome Grant and Albert Mayfield, 1Univ. of Tennessee, Knoxville, TN, 2USDA - Forest Service, Asheville, NC

3:06 PM 65 Machine learning of Aedes mosquito population dynamics through the factors in the environmental ecosystems. Yifan Wang (yzw0093@auburn.edu) and Nannan Liu, Auburn Univ., Auburn, AL

PhD Student Oral Presentation Competition IV

Conway (Little Rock Marriott)

Moderator(s): Silvana V. Paula-Moraes, Univ. of Florida, Jay, FL and Pierre Lau, United States Dept. of Agriculture, Stoneville, MS

3:45 PM 69 Antibiosis resistance of fall armyworm rice strain in commercial turfgrass cultivars. Julia Nogueira Duarte Campos (jinogueiraduartec@ufl.edu), Silvana V. Paula-Moraes, J. Bryan Unruh,
3:57 PM 70 Developing a pollen nutrition database for North America: Healthy food for healthy bees. Lauren Jennings (lnj113@msstate.edu), Max Simon, Ramesh Sagil and Priyadarshini Chakrabarti Basu, 1Mississippi State Univ., Starkville, MS, 2Univ. of Florida, Gainesville, FL

4:09 PM 71 Mutation frequency analysis and expression profiling of insect ryanodine receptor in soybean looper, Chrysodeixis includens. Sena Isbilir (si240@msstate.edu), Lauren Catchot, Fred Musser and Seung-Joon Ahn, Mississippi State Univ., Mississippi State, MS

4:21 PM 72 To Bt, or not to Bt? Evaluating insecticidal protein and mycotoxigenic fungi interactions Autumn McLaughlin (aam0044@utk.edu), Sebe Brown and Heather Kelly, Univ. of Tennessee, Jackson, TN

4:33 PM 73 Alternative hosts and overwintering survival of Helicoverpa zea (Boddie) (Lepidoptera: Noctuidae) southeast USA. Izaida Barbosa dos Santos (barbosad.izaida@ufl.edu), Silvana V. Paula-Moraes, Dan Hahn, Clyde Fraisse, Julien Beuzelin and Omatthage Perera, 1Univ. of Florida, Gainesville, FL, 2Univ. of Florida, Gainesville, FL, 3Univ. of Florida, Belle Glade, FL, 4USDA-ARS, Southern Insect Management Research Unit, Stoneville, MS

4:45 PM 74 Identification of cytochrome P450s potentially involved in resistance to imidacloprid and cyantraniliprole in Bemisia tabaci (Hemiptera: Aleyrodidae) in Georgia, USA. Md Abdullah Al Baki (ma82718@uga.edu), Jermaine Perier, Donald Champagne and David Riley, 1Univ. of Georgia, Athens, GA, 2Univ. of Georgia, Tifton, GA

4:57 PM 75 Effect of conventional and organic pesticides for the management of diamondback moth, and impact on natural enemies. Kendi Muthomi (pmuthomi@ufl.edu), Oscar Liburd, Dakshina Seal, Julien Beuzelin and Tolulope Morawo, 1Univ. of Florida, Gainesville, FL, 2Univ. of Florida, Homestead, FL, 3Univ. of Florida, Belle Glade, FL, 4Univ. of Florida, Fort Pierce, FL
82 Parasitoids of soybean looper, *Chrysodeixis includens* (Walker), in soybean agroecosystems. Scott Lee (slee168@lsu.edu), Jeremy Greene, David Owens, Dominic Reisig, Sally Taylor and Jeffrey Davis, Louisiana State Univ., Baton Rouge, LA, 2Clemson Univ., Blackville, SC, 3Univ. of Delaware Cooperative Extension, Newark, DE, 4North Carolina State Univ., Plymouth, NC, 5Virginia Polytechnic Institute and State Univ., Suffolk, VA

83 Linking potential wooded overwintering habitats and presence of stink bugs in corn in two North Carolina ecoregions. Kevin Orta (korta@ncsu.edu) and Dominic Reisig, North Carolina State Univ., Raleigh, NC, 2North Carolina State Univ., Plymouth, NC

84 Lethal and sub-lethal effects of conventional and organic insecticides on the exotic and resident parasitoids of spotted-wing drosophila. Subin Neupane (Sbn88190@uga.edu), Ashfaq Sial and Jason Schmidt, Univ. of Georgia, Athens, GA, 2Univ. of Georgia, Tifton, GA

85 Seasonal abundance and spatial distribution of thrips pests and natural enemies in strawberry in Florida. Gagandeep Kaur (gkaur2@ufl.edu) and Sriyanka Lahiri, 1PhD Student, Wimauma, FL, 2Univ. of Florida, Wimauma, FL

86 Engineered microalgae feed to bolster honey bee disease resistance. Allyson Martin (amar365@lsu.edu), Alexander McMenamin and Vincent Ricigliano, Louisiana State Univ., Baton Rouge, LA, 2USDA - ARS, Baton Rouge, LA

87 ABC transporter mutagenesis using a CRISPR/Cas9 genome editing tool in the soybean looper, *Chrysodeixis includens*. Sujin Lee (sl2106@msstate.edu) and Seung-Joan Ahn, Mississippi State Univ., Mississippi State, MS

88 Deciphering the interplay between selenoproteins and the unfolded protein response in pathogen infection using an *Ixodes scapularis* cell line. Latoya Downs (latoya.downs@usm.edu) and Shahid Karim, The Univ. of Southern Mississippi, Hattiesburg, MS, 2Principle Investigator, Hattiesburg, MS

89 First record of earleaf acacia as a new plant host for the native seed beetle *Stator limbatus* in Florida. Sara Salgado (sara.salgadoast@ufl.edu) and Carey Minteer-Killian, Univ. of Florida, Fort Pierce, FL

90 Evaluation of at-plant insecticides and nematicides to preserve cotton seedling plant health and yield in Alabama. Thomas Douglas (tdj0053@auburn.edu), Scott Graham and Kathy Lawrence, Auburn Univ., Auburn, AL

91 Comparison of chryosgen formulations for control of soybean looper, *Chrysodeixis includens*, in Arkansas soybean production. Caleb Rice (caleb.rice2012@gmail.com), Gus Lorenz, Benjamin Thrash, Nick Bateman, Chase Floyd, Stephen Felts, Andrew Plummer, Trevor Newkirk, Adam Whitfield and Taylor Harris, 1Division of Agriculture, Cooperative Extension Service, Dept. of Entomology, Lonoke, AR, 2Univ. of Arkansas, Lonoke, AR, 3Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, 4Univ. of Arkansas, Stuttgart, AR

92 Longitudinal monitoring of honey bee colonies along an agricultural intensification gradient in Mississippi. Angus Catchot III (alc607@msstate.edu), Urita Agana, Audrey Sheridan, Priyadarshini Chakrabarti Basu and Jeff Gore, 1Mississippi State Univ., Starkville, MS, 2Mississippi State Univ., Mississippi State, MS, 3Mississippi State Univ., Stoneville, MS
CONTRIBUTED POSTERS: Medical, Urban and Veterinary / 8:00 AM-6:00 PM

Balcony (Little Rock Marriott)

P-32 Disinfestation of red imported fire ants from balled-and-burlapped nursery stock using non-repellent insecticides. Lex Nielsen (lexnielsen01@gmail.com), Rachel Atchison and David Oi, USDA - ARS, Gainesville, FL

P-33 Influences of larval environmental conditions on Dirofilarial immitis (Onchocercidae: Rhabditida) transmission in Aedes albopictus and Ae. triseriatus. Kaylin Lewandowski (kslewand@ncsu.edu), North Carolina State Univ., Raleigh, NC

P-34 Succession of forensically important Diptera in North Florida. Lee Bushong1, Maya Mancle (maya1.mancle@famu.edu)1 and Shemiah Lee2, 1Member, Tallahassee, FL, 2Student, Tallahassee, FL

CONTRIBUTED POSTERS: Plant-Insect Ecosystems / 8:00 AM-6:00 PM

Balcony (Little Rock Marriott)

P-35 Effects of land-use change on the pollen load composition of a purported specialist bee (Habropoda laboriosa). Sarah Anderson (andersonsarah@ufl.edu) and Rachel Mallinger, Univ. of Florida, Gainesville, FL

P-36 Genetic variation of rice stink bug, Oebalus species. A. L. Szalanski (aszalan@uark.edu)1, Raymond L. Hix2, Dylan Cleary3, Ronald H. Cherry2 and Nick Bateman1, 1Univ. of Arkansas, Fayetteville, AR, 2Florida A&M Univ., Tallahassee, FL, 3Univ. of Florida, Belle Glade, FL, 4Univ. of Arkansas, Stuttgart, AR

P-37 MyIPM for row crops - a smartphone application to increase adoption of IPM. Francis Reay-Jones (freayjo@clemson.edu)1, Tim Bryant1 and Guido Schnabel2, 1Clemson Univ., Florence, SC, 2Clemson Univ., Clemson, SC

P-38 Monitoring population trends in southwestern corn borer (Diatraea grandiosella) utilizing pheromone traps in Arkansas: A five-year summary. Glenn Studebaker (gstudebaker@uada.edu)1 and Matthew Mann2, 1Univ. of Arkansas System Division of Agriculture Cooperative Extension Service, Keiser, AR, 2Univ. of Arkansas System Division of Agriculture Cooperative Extension Service, Jonesboro, AR

P-39 Empowering ag professionals in pest management decisions by delivering extension information in a mobile-friendly website: “Cotton Pests in Florida App”. Ethan Carter (ethancarter@ufl.edu)1, Isaac Esquive2 and Silvana V. Paula-Moraeza1, 1Univ. of Florida, Miamiana, FL, 2Univ. of Florida, Quincy, FL, 3Univ. of Florida, Jay, FL

P-40 Susceptibility of Bemisia tabaci MEAM1 (Hemiptera: Aleyrodidae) to Spirotetramat in south Florida. Marcelo Dimase (marcelodimase@ufl.edu) and Hugh Smith, Univ. of Florida, Wimauma, FL

P-41 Using population genomics to characterize whitefly predator dispersal. Garrison Piel (gwp01241@uga.edu)1, William Snyder2, Michael Crossley3 and Pedro Rodrigues4, 1Univ. of Georgia, Athens, GA, 2Univ. of Delaware, Newark, DE

P-42 Laboratory virulence of entomopathogenic fungus, Beauveria bassiana, to the maize weevil, Sitophilus zeamais. Anurag Singh (Anurag.singh@fvsu.edu)1, Yinping Li2 and George N. Mbata3, 1Fort Valley State Univ., Fort Valley, GA, 2Agricultural Research Station, Fort Valley State Univ., Fort Valley, GA

P-43 Prey and macronutrient selectivity in a common insectivorous predator, Sceloporus consobrinus. Tanner Senti (tsenti@cub.uca.edu), Univ. of Central Arkansas, Conway, AR

P-44 Ongoing classical biological control activities in Tennessee. Jerome Grant (jgrant@utk.edu) and David Bechtel, Univ. of Tennessee, Knoxville, TN

P-45 Flowering plants for biological control of arthropod pests. Kaushalya Amarasekare (kamarase@tnstate.edu), Fizu Yuldashv and Yuna Gaire, Tennessee State Univ., Nashville, TN

P-46 Influences of Varroa mite and viral infections on insecticide susceptibility in honey bee. Yu-CHENG Zhu (yc.zhu@usda.gov), USDA-ARS, STONEVILLE, MS
| P-47 | Sunflowers managed for doves as pollinator habitat. Katherine Parys¹, Ebony Jenkins², Kimberly Huntzinger (kim.huntzinger@usda.gov)¹ and Terry Griswold³, ¹USDA - ARS, Stoneville, MS, ²Univ. of Maryland, Princess Anne, MD, ³USDA ARS, STONEVILLE, MS, ⁴USDA - ARS, Logan, UT |
| P-48 | Does habitat matter?: Dung beetle communities in forests and cattle pastures in northeast Arkansas Becca Lett (rebecca.lett@smail.astate.edu)¹ and Tanja McKay², ¹Arkansas State Univ., Jonesboro, AR, ²Univ. of Arkansas Division of Agriculture, Fayetteville, AR |
| P-49 | What limits gene flow between host-associated populations of the indigenous gall midge Asphondylia borrichiae (Diptera: Cecidomyiidae)? Anthony Rossi (arossi@unf.edu) and Keith Stokes, Univ. of North Florida, Jacksonville, FL |
| P-50 | A long-term comparison of seasonality in gall density among host species of the gall forming midge Asphondylia borrichiae (Diptera: Cecidomyiidae). Keith Stokes (kstokesbiologist@gmail.com) and Anthony Rossi, Univ. of North Florida, Jacksonville, FL |

CONTRIBUTED POSTERS: Systematics, Evolution, and Biodiversity; Physiology, Biochemistry, and Toxicology / 8:00 AM-6:00 PM

Balcony (Little Rock Marriott)

| P-51 | First records of Agapostemon poeyi (Lucas 1856) (Hymenoptera: Halictidae), a new bee species to the Southeastern US. Katherine Parys (katherine.parys@usda.gov)¹ and John S. Ascher², ¹USDA - ARS, Stoneville, MS, ²National Univ. of Singapore, Singapore, Singapore |
| P-52 | Toxicity of the neem oil on the peanut burrower bug. Feng Li (Feng.li@fvsu.edu)², Yining Li³ and George N. Mbata², ²Fort Valley State Univ., Fort Valley, GA, ³Agricultural Research Station, Fort Valley State Univ., Fort Valley, GA |
| P-53 | Fall armyworm susceptibilities to four proteins commonly used proteins in pyramid Bt corn in the southern United States. Tiago Silva (TSilva@AgCenter.Lsu.edu)¹, Gregory Sword², Andie Miller², Jawwad Qureshi³, Graham P. Head⁴, Dawson Kerns⁵, Juan-Luis Jurat-Fuentes⁶, James Villegas⁶, Tyler Towles⁷, Xinzhi Ni⁸, Daniel Carrillo⁹, Don Cook¹⁰, Chris Davis¹¹, Francis Reay-Jones¹², Michael Stout¹⁳, Benjamin Thrash¹⁴, Silvana Vieira de Paula-Moraes¹⁵, Shucong Lin¹, Bhavana Plata¹, Ying Niu¹, Caroline Sakuno¹, ¹Louisiana State Univ. Agricultural Center, Winnsboro, LA, ⁸USDA - ARS, Tifton, GA, ⁹Univ. of Florida, Homestead, FL, ¹⁰Mississippi State Univ., Stoneville, MS, ¹¹Bayer U.S. Crop Science, Stoneville, MS, ¹²Clemson Univ., Florence, SC, ¹³Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, ¹⁴Univ. of Florida, Jay, FL, ¹⁵Centro de Tecnologia Canavieira, Piracicaba, Brazil |
Tuesday, March 14, 2023, Morning

SYMPOSIUM: Compounding Whitefly-Virus Issues in Vegetable Production in Southeastern United States
Salon A (Little Rock Marriott)

Moderators and Organizers: Rajagopalbabu Shrinivasan, Univ. of Georgia, Griffin, GA; Alvin Simmons, USDA - ARS, Charleston, SC and Allen J. Moore, Univ. of Georgia, Athens, GA

8:00 AM  93 Source of Plant Resistance against Whiteflies in Pepper. **Alvin Simmons** (alvin.simmons@usda.gov) and William Rutter2, 1USDA, Charleston, SC, 2USDA, ARS, U.S. Vegetable Laboratory, Charleston, SC

8:20 AM  94 Direct and indirect effects of insecticides on generalist predators and their contribution to whitefly control. **Arash Kheirodin** (arash.kheirodin@uga.edu), Albertha Parkins and Jason Schmidt, Univ. of Georgia, Tifton, GA

8:40 AM  95 Could predation risks in adult *Bemisia tabaci* affect oviposition and offspring development. **Oscar Liburd** (oeliburd@ufl.edu)2 and Rosangela Marucci2, 1Univ. of Florida, Gainesville, FL, 2Departamento de Entomologia da Universidade Federal de Lavras - UFLA, Lavras, FL

9:00 AM  96 Resistance against whiteflies and viruses in squash germplasm. **Gurjit Singh** (fnu.gurjitsingh@uga.edu)2, Cecilia McGregor2, Alexander Luckew3, Bhobesh Dutta4, Sudeep Bag5 and Rajagopalbabu Shrinivasan1, 1Univ. of Georgia, Griffin, GA, 2Univ. of Georgia, Athens, GA, 3Dept. of Horticulture, Athens, GA, 4The Univ. of Georgia, Tifton, GA, 5Univ. of Georgia, Tifton Campus, Tifton, GA

9:20 AM  97 Cordyceps javanica as a biocontrol agent in whitefly management. **Katherine Anderson** (klanderson97@ferrum.edu), Shaohui Wu1, Michael Toews2, Robert Behle2, Christopher Dunlap4, and David Shapiro-Ilan5 1Univ. of Georgia, Tifton, GA, 2Bioactive Agents Research, National Center for Agricultural Utilization Research, USDA-ARS, Peoria, IL, 3USDA-ARS, SE Fruit and Tree Nut Research Unit, Byron, GA, 4USDA ARS NCAUR, Peoria, IL

9:40 AM  98 Field evaluation of squash cultivars for susceptibility to the sweetpotato whitefly, *Bemisia tabaci*, infestations. **Yinping Li** (yinping.li@fvsu.edu)2, George Mbata1 and Alvin Simmons2, 1Fort Valley State Univ., Fort Valley, GA, 2USDA, Charleston, SC

SYMPOSIUM: Current Medical Entomology Research in the Southeastern Branch
Conway (Little Rock Marriott)

Moderators and Organizers: Dayvion Adams, North Carolina State Univ., Raleigh, NC and Estelle Martin, Univ. of Florida, Gainesville, FL

8:00 AM  99 Efficacy of low density In2Care traps as a component of integrated mosquito management. **Estelle Martin** (estellemartin@ufl.edu), Univ. of Florida, Gainesville, FL

8:15 AM  100 Range Expansions, Population Variations, and Pathogen Dynamics. **Holly Gaff** (hgaff@odu.edu), Old Dominion Univ., Norfolk, VA

8:30 AM  101 Native Wolbachia infection and larval competition stress shape fitness and West Nile virus infection in Culex quinquefasciatus mosquitoes. **Eric Caragata** (e.caragata@ufl.edu)1, Abdullah Alomar2, Dongmin Kim2, Natalie Kendziorski2, Bradley Eastmond2 and Barry Alto2, 1Univ. of Florida, FMEL, Vero Beach, FL, 2Univ. of Florida: Florida Medical Entomology Laboratory, Vero Beach, FL

8:45 AM  102 A citizen science approach to conducting tick surveillance in North Carolina. **Dayvion Adams** (dradams4@ncsu.edu) and Michael Reiskind, North Carolina State Univ., Raleigh, NC

9:00 AM  Break

9:15 AM  103 Characterization of human-mosquito contact rate as a new paradigm linking socio-environment and mosquito-borne disease transmission. **Panpim Thongsripong** (thongsripong.p@ufl.edu), Univ. of Florida, Vero Beach, FL

9:30 AM  104 Using human tick encounters to understand when and where a tick is likely to quest (or bite you). **Rebecca Trout Fryxell** (rfryxell@utk.edu)2, R. Butler2, Jennifer G. Chandler2 and James T. Vogt1,2, 1Univ. of
9:45 AM 105 Leveraging routine surveillance and control data to investigate mosquito phenology over a 20 year period. Lindsay Campbell (lcampbell2@ufl.edu), Mohamed Sallam2, Amely Bauer1, Yasmin Tavares1 and Robert Guralnick3, 1Univ. of Florida, Vero Beach, FL, 2Navy Entomology Center of Excellence, Jacksonville, FL, 3Univ. of Florida, Gainesville, FL

10:27 AM 141 Optimizing vacuum extraction as an effective larval sampling technique for spotted-wing drosophila in small fruit crops. Arun Babu (ArunBabu@uga.edu), Rosan Adhikari and Ashfaq Sial, Univ. of Georgia, Athens, GA

10:39 AM 142 Male-only and gene drive strains for genetic biocontrol of Drosophila suzukii. Maxwell Scott (mjscott3@ncsu.edu), North Carolina State Univ., Raleigh, NC

10:51 AM 143 Recent advancements in behavioral management of spotted-wing drosophila. Ashfaq Sial (ashsial@uga.edu) and Arun Babu, Univ. of Georgia, Athens, GA

11:03 AM 144 Spotted-wing Drosophila, Drosophila suzukii, movement and management utilizing attract-and-kill technology. Elena Rhodes (erhodes@ufl.edu), Gabrielle LaTora1, Carlene Chase1, Pablao Urbaneja2, Cesar Rodriguez-Saona2, Arun Babu1, Ashfaq Sial1 and Oscar Liburd1, 1Univ. of Florida, Gainesville, FL, 2Rutgers, The State Univ. of New Jersey, New Brunswick, NJ, 3Univ. of Georgia, Athens, GA

11:15 AM 145 Aspects of spotted-wing drosophila biological control efforts in Georgia. Subin Neupane (Sbn88190@uga.edu) and Ashfaq Sial, Univ. of Georgia, Athens, GA

11:27 AM 146 Advancements towards the biocontrol of Drosophila suzukii in North Central Florida natural areas using Ganaspis brasiiliensis. James Brown (jamesbrown5@ufl.edu) and Oscar Liburd, Univ. of Florida, Gainesville, FL

11:39 AM 147 Biological control potential of entomopathogenic nematodes for the management of Drosophila suzukii. Arden Lambert (ardenrain@ufl.edu) and Oscar Liburd, Univ. of Florida, Gainesville, FL

11:51 AM 148 Establishing and optimizing a mass-rearing system and quality standards for SIT of spotted wing Drosophila. Allen Cohen (acohen@ncsu.edu), North Carolina State Univ., Raleigh, NC
CONTRIBUTED ORAL PRESENTATIONS I:
General; Plant-Insect Ecosystems

Harris Brake (Little Rock Marriott)

Moderator(s): Morgan Pinkerton, University of Florida/IFAS, Sanford, FL; Simon Yeboah, University of Florida, Gainesville, FL

8:00 AM 110 Recruitment and retention of entomologists of color. Ana Chicas-Mosier (ana.chicasmosier@ku.edu)¹ and Charles Abramson², ¹Univ. of Kansas, Lawrence, KS, ²Oklahoma State Univ., Stillwater, OK

8:12 AM 111 First Friday Invasive Species Webinars to train Florida first detectors. Morgan Pinkerton (morgan0402@ufl.edu)¹ and Amanda Hodges², ¹Univ. of Florida/IFAS, Sanford, FL, ²Univ. of Florida, Gainesville, FL

8:24 AM 112 Surveys for insect biodiversity in the Upper Ozark Plateau, Fort Leonard Wood, Missouri. Sage Wood (mewd8c@mst.edu)¹, Theodore Sumnicht², ¹Missouri Univ. of Science & Technology, Rolla, MO, ²Missouri Univ. of Science and Technology, Newburg, MO, ³Missouri Univ. of Science and Technology, Rolla, MO

8:36 AM 113 Comparison of fruit fly baits for the management of the oriental fruit fly, Bactrocera dorsalis (Hendel) (Diptera: Tephritidae), in mango orchards in southern Ghana. Simon Yeboah (syebboah678@ufl.edu)¹, Paul E. Kendra² and Oscar Liburd³, ¹Univ. of Florida, Gainesville, FL, ²USDA-ARS, Miami, FL, ³Mississippi State Univ., Starkville, MS

8:48 AM 114 Monitoring and management of the pickleworm/melonworm complex in the southeastern United States. Tom Bilbo (tbilbo@clemson.edu)², Helene Doughty² and Thomas Kuhar³, ¹Clemson Univ., Charleston, SC, ²Virginia Polytechnic Institute and State Univ., Painter, VA, ³Virginia Polytechnic Institute and State Univ., Blacksburg, VA

9:00 AM 115 Seasonal survey of chilli thrips in nurseries. Aerianna Littler (azl0117@auburn.edu) and David Held, Auburn Univ., Auburn, AL

9:12 AM 116 Evaluation of commercial lures under field conditions for longevity for western flower thrips, Frankliniella occidentalis Pergande (Thysanoptera: Thripidae). Dawn Sikora

9:24 AM Break

9:39 AM 117 Harnessing behavioral psychology to encourage individuals’ adoption of pollinator conservation behaviors. Conor Fair (cfair13@uga.edu) and S. Branan, Univ. of Georgia, Athens, GA

9:51 AM 118 The impacts of poor nutrition and pesticides exposure on honey bee physiology and gut microbiome. Urita Agana (ua57@msstate.edu), Hunter Walt, Angus Catchot and Priyadarshini Chakrabarti Basu, Mississippi State Univ., Starkville, MS

10:03 AM 119 Lethal and sublethal effects of pesticide-contaminated pollen food stores on solitary bee larvae. Ngoc Phan (ngocpata@gmail.com)¹, Neelendra Joshi², Edwin Rajotte³, Fang Zhu³, Kari Peter³, Margarita López-Uríbe² and David Biddinger², ¹Univ. of Arkansas, Fayetteville, AR, ²Pennsylvania State Univ., Univ. Park, PA, ³Penn State Fruit Research and Extension Center, Biglerville, PA

10:15 AM 120 Interactive effects of pesticide and nutrition on honey bee (Apis mellifera) health. Giovanni Tundo (Giovanni.Tundo@usda.gov) and Pierre Lau, United States Dept. of Agriculture, Stoneville, MS

10:27 AM 121 Two novel systemic insecticides affect the mortality and enzyme expression of the mason bee, Osmia lignaria. Olivia Kline (okline@uark.edu) and Neelendra Joshi, Univ. of Arkansas, Fayetteville, AR

10:39 AM 122 Intertegular Distance (ITD) measurements of 191 North American bee species are used as a proxy to estimate foraging ranges and tongue lengths to better understand pollinator ecology. Lilia Stemet (stemet@uark.edu), Univ. of Arkansas System Division of Agriculture, Fayetteville, AR

10:51 AM 123 Is there gene flow? Population genetics using RADseq data from migratory and non-migratory hover flies (Diptera: Syrphidae) C. Scott Clem (Carl.Clem@uga.edu) and William Snyder, Univ. of Georgia, Athens, GA

11:03 AM 124 Building diversity data on native bees in Arkansas. Coleman Little (Dsikora@g.clemson.edu), Clemson Univ., Clemson, SC
CONTRIBUTED ORAL PRESENTATIONS II: Plant-Insect Ecosystems; Medical, Urban and Veterinary White Oak (Little Rock Marriott)

**Moderator(s):** Colin Wong, USDA ARS, Byron, GA; Rachel Atchison, USDA - ARS, Gainesville, FL

Tuesday, March 14, 2023, Afternoon

**SYMPOSIUM: Biological Control in Natural Areas**

Conway (Little Rock Marriott)

**Moderators and Organizers:** Nicole Benda, Florida Dept. of Agriculture, Division of Plant Industry, Gainesville, FL and Alex Gaffke, United States Dept. of Agriculture, Agricultural Research Service, Tallahassee, FL

### 2:00 PM

149 Distribution, population dynamics, and biological control of the roseau cane scale in Louisiana. **Tanner Sparks** (Tspark3@lsu.edu), Rodrigo Diaz, and Hannah Bradley, 1Louisiana State Univ., Baton Rouge, LA, 2USDA APHIS PPQ S&T, Buzzards Bay, MA

### 2:25 PM

150 Improved laboratory rearing of **Apanteles opuntiarum** (Hymenoptera: Braconidae), a parasitoid of the Cactus moth, **Cactoblastis cactorum** (Lepidoptera: Pyralidae). **Nicole Benda** (nicole.benda@fdacs.gov), Kate Fairbanks, Ashley Pappas, and Donald Bracey, 1Florida Dept. of Agriculture, Division of Plant Industry, Gainesville, FL, 2Florida Dept. of Agriculture and Consumer Services: Division of Plant Industry, Gainesville, FL, 3FDACS-DPI, Gainesville, FL

### 2:50 PM

151 Spread and establishment of natural enemies of **Solenopsis invicta** in Florida, USA. **Anamika Sharma** (Anamika.sharma@famu.edu), Florida A & M Univ., Tallahassee, FL

### 3:15 PM

152 Chinese tallow biological control and pollinators. **Alex Gaffke** (Alexander.Gaffke@usda.gov), Greg Wheeler, Daijiang Li and Rodrigo Diaz, 1United States Dept. of Agriculture, Agricultural Research Service, Tallahassee, FL, FL, 2USDA - ARS, Fort Lauderdale, FL, 3Louisiana State Univ., Baton Rouge, LA

### 3:40 PM

153 With a Little Help From Our Friends: Integrating Classical Biocontrol with Other Control Methods (Natural Areas Edition). **Carey Minteer** (cminteer@uark.edu), Kelly Carruthers, and Emily Le Falchier, 1Univ. of Florida, Fort Pierce, FL, 2Univ. of Georgia, Athens, GA

</table>
| 2:00 PM| **The use of current and future trait technologies for insect management in midsouth cropping systems.**
Whitney Crow (wdc165@msstate.edu) and Don Cook, Mississippi State Univ., Stoneville, MS |
| 2:15 PM| **Cotton leafroll dwarf virus is an emerging virus in the cotton belt transmitted by Aphis gossypii.**
Kathleen Martin (Kmm0173@auburn.edu), Alana Jacobson, Amanda Strayer-Scherer and Kathy Lawrence, Auburn Univ., Auburn, AL |
| 2:30 PM| **Impact of cover crops on arthropod community dynamics.**
Rupesh Kariyat (rkariyat@uark.edu), Adegbuyega Fajemisin, Satundarpal Kaur, Alejandro Vasquez and Alexis Racelis, Univ. of Arkansas, Fayetteville, AR, The Univ. of Texas Rio Grande Valley, Edinburg, TX |
| 2:45 PM| **Research on pollinators in agroecosystems and strategies toward sustainable management and finding a common ground with multiple stakeholders.**
Pierre Lou (pierre.lou@usda.gov), Partson Mubvumba and Heather Tyler, United States Dept. of Agriculture, Stoneville, MS, USDA-ARS, Stoneville, MS |
| 3:00 PM| **Integrating semiochemicals and trap cropping practices for Lygus lineolaris management in cotton.**
Justin George (Justin.George@usda.gov), Gadi Reddy and David Hall, USDA-ARS SIMRU, Stoneville, MS, USDA-ARS, Stoneville, MS, Univ. of Greenwich, Chatham, United Kingdom |

**SYMPOSIUM: Making Entomology Diverse: Overcoming Challenges**

Arkansas Ballroom (Little Rock Marriott)

**Organizers:** Vilma Montenegro, Univ. of Florida, Vero Beach, FL and Sara Salgado, Univ. of Florida, Fort Pierce, FL

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 2:00 PM| **Loosing fears: Beginning to advocate.**
Vilma Montenegro (vilma.montenegro@ufl.edu), Univ. of Florida, Vero Beach, FL |
| 2:10 PM| **Taking the long way around: My journey through academia as a first-generation college student.**
Carey Minteer-Killian (c.minteerkillian@ufl.edu), Univ. of Florida, Fort Pierce, FL |
2:25 PM  168  From Europe to America: How I became a STEMinist. Emilie Demard (edemard@ufl.edu), Univ. of Florida, Lake Alfred, FL

2:40 PM  169  Piled higher and deeper: When mental health challenges pile up during graduate school. Kelly Carruthers (kellyacarruthers@gmail.com), Univ. of Florida, Fort Pierce, FL

2:55 PM  170  Following mosquitoes across continents. Eric Caragata (e.caragata@gmail.com), Univ. of Florida; Florida Medical Entomology Laboratory, Vero Beach, FL

3:10 PM  171  10-minute break

3:20 PM  172  Dare to thrive: Strategies for navigating your early career years. Nicole Quinn (nicole.quinn@ufl.edu), USDA-ARS, Newark, DE

3:35 PM  173  A mom’s journey to becoming an entomologist: a unique recipe for success. Sarah McInnis (s.mcinnis@irmosquito2.org), Indian River Mosquito Control Distric, Vero Beach, FL

4:00 PM  174  The importance of advocacy. Sara Salgado (sara.salgadoast@ufl.edu), Univ. of Florida, Fort Pierce, FL

SYMPOSIUM: Management of Invasive Mealybugs of the Southeastern US: Challenges and Opportunities

White Oak (Little Rock Marriott)

Organizers: Nicole Quinn, Univ. of Florida, Fort Pierce, FL; Lauren Diepenbrock, Univ. of Florida, Lake Alfred, FL and Muhammad Ahmed, United States Dept. of Agriculture, Fort Pierce, FL

2:00 PM  175  Welcoming Remarks

2:05 PM  176  Feasibility of classical biological control of Nipaecoccus viridis in Florida. Nicole Quinn (nicole.quinn@ufl.edu), Univ. of Florida, Fort Pierce, FL

2:45 PM  177  Incorporating phenology into the management of Hibiscus mealybug (Nipaecoccus viridis) in Florida citrus. Lauren Diepenbrock (ldiepenbrock@ufl.edu) and David Olabiyi, Univ. of Florida, Lake Alfred, FL

3:05 PM  178  Break

3:20 PM  179  Biocontrol and impact of Invasive Hypogeococcus mealybugs in native cacti species. Jose Carlos Verle Rodrigues (JoseCarlos.VerleRodrigues@usda.gov), USDA-APHIS-PPQ-S&T, Edinburg, TX

3:40 PM  180  Striped mealybug: A native mealybug made “invasive” through ornamental plant trade. Juang Horng Chong (juanghc@clemson.edu), Clemson Univ., Florence, SC

4:00 PM  181  Developing EPG waveforms library for the hibiscus mealybug, Nipaecoccus viridis (Hemiptera: Pseudococcidae): Characterization of EPG waveforms at different input resistance, gain range, and voltage levels. Emilie Demard (edemard@ufl.edu) and Lauren Diepenbrock, Univ. of Florida, Lake Alfred, FL

4:20 PM  182  Discussion

4:50 PM  Concluding Remarks

CONTRIBUTED ORAL PRESENTATIONS III:
Plant-Insect Ecosystems

Harris Brake (Little Rock Marriott)

Moderator(s): Fred Musser, Mississippi State Univ., Mississippi State, MS and Krishna Patel, Univ. of Georgia, Athens, GA

2:00 PM  183  Longitudinal trends in mid-southern soybean insect losses. Fred Musser (fm61@msstate.edu), Angus Catchot1, Whitney Crow2, Gus Lorenz3, Benjamin Thrash4, Scott Stewart5, Sebe Brown5 and Jeffrey Davis6, 1Mississippi State Univ., Mississippi State, MS, 2Mississippi State Univ., Stoneville, MS, 3Univ. of Arkansas, Lonoke, AR, 4Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, 5Univ. of Tennessee, Jackson, TN, 6LSU AgCenter, Baton Rouge, LA

43
The effects of water availability on arthropod food webs and the consequences for pest control in cotton agroecosystems. Jordan Croy (croy.jordan@uga.edu), Krishna Patel, Jason Schmidt, Pedro Rodrigues and William Snyder, Univ. of Georgia, Athens, GA, Univ. of Georgia, Tifton, GA

PLINAZOLIN® technology: A broad-spectrum active ingredient for insect control in development by Syngenta Crop Protection AG. Victor Mascarenhas (victor.mascarenhas@syngenta.com) and Elijah Meck, Syngenta Crop Protection, Nashville, NC, Syngenta Crop Protection, Greensboro, NC

Influence of Imidacloprid Seed Treatment Rate on ThryvOn Cotton. Brett Farmer (wbff44@msstate.edu), Jeff Gore, Angus Catchot, Whitney Crow, Don Cook and Brian Pieralisi, Mississippi State Univ., Mississippi State, MS, Mississippi State Univ., Stoneville, MS, Mississippi State Univ., Starkville, MS

Tobacco thrips resistance to organophosphate insecticides in the midsouth and southeast. Sebe Brown (sbrow175@utk.edu), Tyler Towles, Whitney Crow, Don Cook, Benjamin Thrash, Nick Bateman, Anders Huseth, Dominic Resig and David Kerns, Univ. of Tennessee, Jackson, TN, Louisiana State Univ. Agricultural Center, Winnboro, LA, Mississippi State Univ., Stoneville, MS, Univ. of Arkansas Cooperative Extension Service, Lonoke, AR, Univ. of Arkansas, Stuttgart, AR, North Carolina State Univ., Raleigh, NC, Texas A&M Univ., College Station, TX

Evaluation of preventative control methods for tomato spotted wilt virus in peanuts. Claire Cooke (cac0243@auburn.edu), Auburn Univ., Auburn, AL

Pyrethroid resistance in fall armyworm, Spodoptera frugiperda, field populations. Rob Meagher (rob.meagher@usda.gov), USDA - ARS, Gainesville, FL

Preharvest insect pests of peanuts in selected regions in Georgia, USA. James Danso (james.danso@fvsu.edu), Raegan Holton, Mark Abney, David Shapiro-Ilan, Yasmine Moffett, Feng Li and George Mbata, Fort Valley State Univ., Fort Valley, GA, Premium Peanut, Douglas, GA, Univ. of Georgia, Tifton, GA, USDA-Agricultural Research Service, Byron, GA

Assessing pest management strategies in blackberries produced on a rotating cross arm trellis. Aaron Cato (acato@uada.edu), Amanda McWhirt and Ryan Keiffer, Univ. of Arkansas, Little Rock, AR

Potential of UV-C for management of twospotted spider mites in Florida strawberry. Sriyanka Lahiri (lahiris@ufl.edu), Joseph Montemayor, Hugh Smith and Natalia Peres, Univ. of Florida, Wimauma, FL

Effects of fence barrier on incidence and damage of Systena frontalis (Coleoptera: Chrysomelidae) adults in container nurseries. Rehan Arshad (rehan.arshad@uga.edu) and Shimat Joseph, Univ. of Georgia, Griffin, GA

Traditional versus bioassay evaluations of immature Bemisia tabaci control: Which is the true measure of efficacy? Paulo Cremonez (paulogimz@uga.edu) and David Riley, Univ. of Georgia, Tifton, GA

Life table parameter comparisons of Nezara viridula (Hemiptera: Pentatomidae) on five okra varieties. Jeffrey Davis (jeffdavis@agcenter.lsu.edu) and Nupur Sarkar, Louisiana State Univ., Baton Rouge, LA, Univ. of Florida, Gainesville, FL

Management of chilli thrips in Florida strawberry using reflective mulch. Midhula Gireesh (mgireesh@ufl.edu) and Sriyanka Lahiri, Univ. of Florida, Wimauma, FL
Wednesday, March 15, 2023, Morning

SYMPOSIUM: Entomologists’ Careers and Roles in Pesticide Safety Education

Hoffman (Little Rock Marriott)

Organizer: Emily Kraus, Univ. of Florida, Gainesville, FL

8:00 AM Introductory Remarks

8:04 AM Pesticide Safety Education: The Hidden Gem of Entomology Careers. Emily Kraus (emilyckraus@ufl.edu), Univ. of Florida, Gainesville, FL

8:24 AM Educating Pest Management Professionals. Daniel Suiter (dsuiter@uga.edu), Univ. of Georgia, Griffin, GA

8:48 AM Pesticide Safety Education Coordinator: An Atypical and Exciting Position in the Land-grant System. Wayne Buhler (wayne_buhler@ncsu.edu), North Carolina State Univ., Raleigh, NC

9:12 AM An Entomologist’s Vital Role in Communicating Public Health, Pesticide Safety and Pollinator Protection. Caitlin Gill (caitlin.gill@fdacs.gov), Florida Dept. of Agriculture and Consumer Services, Alachua, FL

9:36 AM Developing Extension Programs for Pesticide Safety in Agriculture. Matthew VanWeelden (mvanweel1@ufl.edu), Univ. of Florida, Belle Glade, FL

SYMPOSIUM: Innovation, Collaboration and Adaptation in Perennial Crop Entomology Research and Extension

White Oak (Little Rock Marriott)

Moderators and Organizers: Apurba Barman, Univ. of Georgia, Tifton, GA and Ted Cottrell, USDA-ARS, Byron, GA

8:00 AM Welcoming Remarks

8:05 AM Mating Disruption for San Jose Scale: A New IPM Tool for Southeastern Peach Production? Brett Blaauw (bblaauw@uga.edu), Univ. of Georgia, Athens, GA

8:45 AM From Insecticide Resistance to Invasive Pests, Challenges and Innovation in Southeastern Apple Pest Management. Jim Walgenbach (jwalgenb@ncsu.edu) and Emily Ogburn, North Carolina State Univ., Mills River, NC

9:05 AM Pest Management Challenges in a Tall Orchard Crop. Ted Cottrell (ted.cottrell@usda.gov), Glynn Tillman, Erin Grabarczyk, Michael Toews, Ashfaq Sia and Srijanya Lahiri, USDA-ARS, Byron, GA, USDA - ARS, Tifton, GA, Univ. of Georgia, Tifton, GA, Univ. of Georgia, Athens, GA, Univ. of Florida, Wimauma, FL

9:25 AM Break

9:35 AM Biology and Management of the Southern Red Mite (Acar: Tetanychidae) in Southern Highbush Blueberries. Oscar Liburd (oeliburd@ufl.edu), Rosangela Marucci and Lorena Lopez, Univ. of Florida, Gainesville, FL, Federal Univ. of Lavras, MG, Brazil, Virginia Tech, Painter, VA

9:55 AM Challenges in Soil-dwelling Insect Pest Management: Prionus Root Borer in Southeastern Pecan Production. Apurba Barman (abarman@uga.edu), Eddie Slusher and Angelita Acebes, Univ. of Georgia, Tifton, GA, USDA-Agricultural Research Service, Byron, GA, USDA-ARS, Hilo, HI

10:15 AM The Modes of Transmission of Bacterial Pathogen, Xylella fastidiosa in Pecan (Carya illinoinensis). Angelyn Hilton (angelyn.hilton@usda.gov), Kimberly Cervantes, Rio Stamler, Richard Heerema, Clive Bock, Xwinwang Wang, Young-Ki Jo, Larry Grauke and Jennifer Randall, USDA-ARS, COLLEGE STATION, TX, New Mexico State Univ., Las Cruces, NM, New Mexico State Univ., Las Cruces, NM, USDA - ARS, Byron, GA, USDA - ARS, College Station, TX, Texas A&M Univ., College Station, TX, USDA-ARS, College Station, TX
10:35 AM 207 Pollinator Conservation and Management in Perennial Fruit Crops. Neelendra Joshi (nkjoshi@uark.edu)1 and David Biddinger2, 1Univ. of Arkansas, Fayetteville, AR, 2Penn State Fruit Research and Extension Center, Biglerville, PA

10:55 AM Concluding Remarks

SYMPOSIUM: Biological Control Under Global Change: S1073 Project Highlights
Harris Brake (Little Rock Marriott)

Organizers: Steven Frank, North Carolina State Univ., Raleigh, NC and Adam Dale, Univ. of Florida, Gainesville, FL

8:30 AM 208 The state of commercial and non-commercial biological control in the United States. Norman Leppla (ncleppla@ufl.edu)1, Lynn M. LeBeck2 and Marshall Johnson3, 1Univ. of Florida, Gainesville, FL, 2Association of Natural Biocontrol Producers, Clovis, CA, 3Univ. of California, Riverside, Parlier, CA

8:50 AM 209 Effect of plant defense traits on the effectiveness of biocontrol of the invasive plant air potato. Jasleen Kaur (jasleenkaur@ufl.edu)1, Emily Kraus2, Diego Salazar3, Erin Clifton1 and Philip Hahn2, 1Univ. of Florida, Gainesville, FL, 2Florida International Univ., Miami, FL

9:10 AM 210 Compatibility of acylsugar tomato lines with four predators of twospotted spider mite. Matthew Brown (msb5@clemson.edu)1, Gungharpur Gill2, Jason Schmidt3, Martha Mutschler-Chu4 and Juang Horng Chong5, 1Clemson Univ., Clemson, SC, 2Utah State Univ., Logan, UT, 3Univ. of Georgia, Tifton, GA, 4Cornell Univ., Ithaca, NY, 5Clemson Univ., Florence, SC

9:30 AM 211 Conservation biological control in urban landscapes. Steven Frank (safrank@ncsu.edu) and Caleb Wilson, North Carolina State Univ., Raleigh, NC

9:50 AM 212 Updates on biological control of insects and weeds from Louisiana: Opportunities for cooperation. Rodrigo Diaz (rdiaz@agcenter.lsu.edu)1, Tanner Sparks2, Corey Pham3, Ilgoo Kang4, Veronica Manrique5 and Amy Roda6, 1Louisiana State Univ., Baton Rouge, LA, 2Univ. of Georgia, Tifton, GA, 3Louisiana State Univ. Agricultural Center, Baton Rouge, LA, 4Southern Univ. and A&M College, Baton Rouge, LA, 5USDA - APHIS, Miami, FL

10:10 AM 213 Co-existence of cereal aphid parasitoids in the Southern Plains: the role of spatial-temporal dynamics and competition. Kristopher Giles (kris.giles@okstate.edu), Haley Butler and Nina Rudin, Oklahoma State Univ., Stillwater, OK

10:30 AM 214 Illuminating the parasitoid communities of peanut landscapes with metabarcodes. Jason Schmidt (jschmid2@uga.edu)1, Erin Grabarczyk2, Mark Abney3 and Melissa D. Thompson4, 1Univ. of Georgia, Tifton, GA, 2Valdosta State Univ., Valdosta, GA

SYMPOSIUM: Building a Career While Helping Others Build Theirs
Hoffman (Little Rock Marriott)

Moderators and Organizers: Nicole Benda, Florida Dept. of Agriculture, Division of Plant Industry, Gainesville, FL and Karla Addesso, Tennessee State Univ., McMinnville, TN

10:15 AM 215 Moving through the ranks at LSU: Lessons learned. Michael Stout (Mstout@agcenter.lsu.edu), Louisiana State Univ. Agricultural Center, Baton Rouge, LA

10:40 AM 218 Mentoring within USDA-ARS for You and Me. Alvin Simmons (alvin.simmons@usda.gov), USDA, Charleston, SC

11:05 AM 217 Knowledge and Experience Gained as a Mentor of Younger Scientists. Norman Leppla (ncleppla@ufl.edu), Univ. of Florida, Gainesville, FL

11:30 AM 216 Widening the path to a more diverse and inclusive Entomology field through representation and mentoring. Yasmin Cardoza (ycardoza@invaio.com), Invaio Sciences Inc, Durham, NC

Common Name Index

American cockroach .................. 47, 138, P-4, P-17
American dog tick .................... 51, 102
Asian citrus psyllid ................. 37, 133
Asian longhorned tick .............. 137
Asian needle ant .................... 3
Asian tiger mosquito ............... 65, P-33
bermudagrass mite .................. 46
black carpenter ant .................. 68
black twig borer ..................... 11
blacklegged tick ..................... 88, 102
blue orchard bee ..................... 121
bollworm .............................. 10, 25
broad mite ............................ 5
broad necked root borer .......... 205
brown marmorated stink bug .. 9
brown stink bug ...................... 80, 83
brownbanded cockroach .......... P-17
Cactus moth .......................... 150
chilli thrips ........................... 79, 85, 115, 194
citrus mealybug ..................... 21
common eastern bumble bee ..53
corn earworm .......................... 15, 17, 28, 48, 62, 72, 73, 77, 80, 161, 162
cotton aphid ......................... 56, 134, 157
crabhole mosquito ................. 43
crapemyrtle bark scale .......... P-44
diamondback moth ............... 42, 75
eastern treehole mosquito ...... 65, P-33
emerald ash borer .................. P-12, P-44
fall armyworm ..................... 49, 69, 158, 187, P-15, P-53
flatheaded appletree borer ...... 31, P-12, P-23
flower thrips ......................... 186
German cockroach ................. 138, P-4
granulate ambrosia beetle ......11, 132, 201
green stink bug ..................... 83
gulf coast tick ....................... 76
hemlock woolly adelgid ........... P-44
Hessian fly ........................... 45
hibiscus mealybug ................. 61, 175, 176, 177, 180
honey bee .......................... 14, 53, 70, 86, 92, 20, 159, P-22, P-31, P-46
kudzu bug ............................ 52, 57
lesser grain borer .................. P-26
lesser peachtree borer .......... P-21
lone star tick ....................... 51, 102, P-1
luna moth ........................... 130
madeira mealybug ................ 134
maize weevil ......................... P-42
melonworm .......................... 114
Mexican rice borer ............... 78, 165
mold mite ........................... P-6
orangehumped mapleworm .....130
oriental fruit fly ................. 113
oriental fruit moth .................... P-21
peachtree borer ....................... P-21
peanut burrower bug ................. P-52
pickleworm ......................... 114
red imported fire ant .............. 24, 151, P-4, P-32
redbanded stink bug ............... 161, 162
redbay ambrosia beetle .......... 63, 201
redhaired pine bark beetle ....... 128
rice stink bug ........................ 12, 55, 135, P-11, P-36
rice water weevil .................... 78, 165
rice weevil ................................ P-14, P-26
roseau cane scale ................. 149, 212
San Jose scale ....................... 200
small hive beetle ................... 14
smokybrown cockroach ........... 138
southeastern blueberry bee ..... P-35
southern green stink bug ....... 23, 83, 193
southern house mosquito ........ 101, 136
southern potato wireworm ...... 27
southern red mite ................... 204
southwestern corn borer .......... P-38
soybean looper ....................... 4, 13, 17, 71, 82, 87, 91, 162
soybean thrips ....................... 186
spotted-wing drosophila ............ 84, 140, 141, 142, 143, 144, 145, 146, 147, 148, 189
squash bug .......................... 23
striped mealybug .................... 179
sugarcane borer ...................... 78
sweetpotato weevil .................. 6
sweetpotato whitefly ............... 19, 60, 74, 93, 94, 95, 96, 97, 98, 164, 192, P-24, P-40, P-41
tarnished plant bug ............... 1, 2, 16, 30, 36, 160, 161
tawny crazy ant ................... 139
tilehorned prionus ................. 205
tobacco budworm ................... 48
tobacco thrips ....................... 2, 90, 184, 185, 186
tropical fire ant ................... 24
turkestan cockroach ............... 47, P-17
twolined chestnut borer .......... P-12
twospotted spider mite .......... 190, 210
yellowfever mosquito ..........  P-29
yellowmargined leaf beetle ..... 66
