

# MUVE HIGHLIGHTS SPEAKER SUBMISSION INFORMATION

Hello, MUVE Section members!

At each ESA Annual Meeting, the MUVE Section hosts a Monday afternoon session that includes Highlights for each of our three segments. This is a special opportunity to reach a very large audience of our peers in Medical, Urban, and Veterinary Entomology. Presentations are 25 min and focus on important recent developments in the specified segment with opportunities for you to identify and highlight particular areas of interest that you believe would also be of interest to the members of MUVE. There is considerable flexibility in how you might approach the presentation, and the MUVE Governing Council can help you with the individual theme that will guide your talk. The MUVE section expects a theme, topic review, or 'white paper' in the form of a *Forum* piece in the *Journal of Medical Entomology* (page charges waived).

**As a way of acknowledging the efforts and to say thank you to our Highlights speakers, the MUVE Section will provide your member registration fee for the Annual Meeting. We are also honoring speakers with a certificate and a \$2000 honorarium.** Additionally, presentation of a Highlights talk does not preclude you from presenting a 10-minute scientific presentation should you desire to also participate as a speaker in a scientific session.

Please officially nominate yourself via email ([kyle.jordan@basf.com](mailto:kyle.jordan@basf.com)) by **10 May 2024** if you are interested in giving a Highlights presentation. Your nomination email should include:

- Your name, sub-section, & affiliation
- Your CV/résumé
- The proposed title of your presentation
- An abstract describing the theme and a sample of papers you intend to include

Sincerely,

A handwritten signature in black ink, appearing to read 'Kyle K. Jordan', written over a horizontal line.

Dr. Kyle K. Jordan  
MUVE President
